

CMP 2012 RESOURCE LIMITED PARTNERSHIP

Semi-Annual Report June 30, 2012

The semi-annual management report of fund performance contains financial highlights, but does not contain the complete semi-annual or annual financial statements of the Partnership. For your reference, the semi-annual financial statements of the Partnership are attached to the semi-annual management report of fund performance. You may obtain additional copies of these documents or a copy of the annual financial statements at your request, and at no cost, by calling toll free 1-800-268-8186, by visiting our website at www.cmpfunds.ca or SEDAR at www.sedar.com or by writing to us at: Dundee Securities Ltd., Dundee Place, 1 Adelaide Street East, 20th Floor, Toronto, Ontario, M5C 2V9.

Securityholders may also contact us using one of these methods to request a copy of the Partnership's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

CMP 2012 Resource Limited Partnership

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements have been prepared by Dundee Securities Ltd., in its capacity as manager (the "Manager") of the Limited Partnership and have been approved by the Board of Directors of CMP 2012 Corporation, in its capacity as general partner (the "General Partner") of the Limited Partnership. The Board of Directors of the General Partner is responsible for the information and representations contained in these financial statements.

The Manager maintains appropriate processes to provide reasonable assurance that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and include certain amounts that are based on estimates and judgements made by the Manager. The significant accounting policies which the Manager believes are appropriate for the Limited Partnership are described in Note 2 to the financial statements.

The Board of Directors of the General Partner has delegated responsibility for oversight of the financial reporting process to the Audit Committee of the Board of Directors of Dundee Corporation. The Audit Committee is responsible for reviewing the financial statements and recommending them to the Board of Directors of the General Partner for approval, in addition to meeting with management, internal auditors and external auditors to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues.

PricewaterhouseCoopers LLP are the external auditors of the Limited Partnership, appointed by the limited partners. The auditors of the Limited Partnership have not reviewed these financial statements. Applicable securities laws require that if an external auditor has not reviewed the Limited Partnership's financial statements, this must be disclosed in an accompanying notice.

ROBERT M. SELLARS
Executive Vice President, Chief Operating Officer and Chief Financial Officer
Dundee Securities Ltd.

August 17, 2012

CMP 2012 Resource Limited Partnership

MANAGEMENT REPORT OF FUND PERFORMANCE

Results of Operations⁽¹⁾

For the period since inception, February 15, 2012 to June 30, 2012 (the “period”), the units of the Partnership generated a since inception return of negative 27.2%. These returns do not include the tax deductions and credits passed on to limited partners via the purchase of flow-through shares. Unlike the returns of the Partnership’s benchmark, Partnership returns are reported net of all management fees and expenses.

The Partnership’s broad-based benchmark, the S&P/TSX Composite Index, returned negative 6.1% during the same period. This is a broad economic sector index comprising approximately 95% of the market capitalization for Canadian-based, Toronto Stock Exchange listed companies. While this broad-based index comparison illustrates the Partnership’s performance relative to the general performance of the market, please note that the Partnership’s mandate is significantly different from the index shown.

The Partnership underperformed the broad-based benchmark during the period primarily as a result of issuance costs associated with the Partnership’s initial public offering of units and its exposure to intermediate and junior resource companies, which experienced greater declines as compared to the more liquid and sector diversified constituents of the broad-based index. Premiums paid for the deductions and credits associated with flow-through shares of investee companies also contributed to the Partnership’s negative returns for the period.

The first two months of 2012 saw precious metal prices steadily climb to their peaks in late February on expectations that global central banks would employ quantitative easing measures to stimulate distressed economies. The prospective stimulus also facilitated strong rallies in base metal prices early on in the period. However, the climb quickly reversed direction in late February as United States Federal Reserve Chairman, Ben Bernanke, made positive comments on the progress of the US economy and ultimately dismissed expectations of a third round of quantitative easing. In addition, growing concerns on China’s future demand for base metals forced prices down through June to one-year lows. Despite negative market pressures, the anticipated intervention from both US and European governments to boost market liquidity spurred modest upward movement in all metal prices near the end of the period.

The energy component of the Partnership also faced adversity as natural gas prices reached its lowest levels since 2001 as production booms created ample stockpiles. In contrast, crude oil prices began the period with steady gains to a high of approximately US\$111 per barrel, as economic sanctions on Iranian crude made the commodity a potentially scarce resource. The concern of a limited resource was later mitigated in early May as Iraqi and Saudi Arabian producers appeared to keep oil markets well supplied which pushed oil prices back down toward approximately US\$78 per barrel. Continued Middle East tensions and a perceived resolution to the European debit crisis created a small rally in energy prices during the last few days of the period, closing near US\$85 per barrel.

(1) All references to net assets or net asset value in this section refer to Transactional NAV (net asset value), which may differ from GAAP Net Assets (net assets).

As uneasy markets led to a reduced demand for stocks of larger resource companies, the effects on companies with smaller market capitalizations still in the exploration stage were magnified. As a result, several such holdings, including Prodigy Gold Inc., Silver Range Resources Ltd., and San Gold Corp. contributed significantly to the Partnership’s decline this period. While San Gold continues to post improving quarterly production results from their Rice Lake operations, lower than expected production grades and higher operating costs have dampened their share price throughout the period.

The Partnership’s net asset value decreased by 27.2% to approximately \$72.8 million at June 30, 2012, from the IPO’s gross proceeds of \$100.0 million. The decrease is mainly attributed to investment performance of approximately negative \$19.9 million and issuance costs of approximately \$6.3 million. The investment performance of the Partnership includes earned income and expenses which vary year over year due to portfolio activity. Prior year results are not available for comparative purposes as the Partnership commenced operations during the current year.

Borrowing

The Partnership established credit facilities with a Canadian chartered bank (the “Bank”) up to an amount not exceeding 7.75% of the gross proceeds raised at inception. The loan proceeds were used for the payment of issuance costs and the Partnership provided the Bank with a security interest in all of the assets of the Partnership. The maximum and minimum amounts borrowed during the period ended June 30, 2012 were \$6,350,000 and \$6,350,000, respectively. The average interest rate on the outstanding balances during the period ended June 30, 2012 was 2.8%.

As at June 30, 2012, the loan outstanding represents a 90-day banker’s acceptance (“BA”) credit facility with a face value of \$6,350,000, representing 8.7% of net assets.

The interest paid on the drawdown or renewal of the BA is deferred and amortized over the term of the BA. The unamortized portion of the deferred interest is included in the Statement of Net Assets in “Accrued interest, dividends and other”. For the period ended June 30, 2012, the Partnership incurred interest expense on the BA of approximately \$78,000.

Recent Developments

Name Change of Portfolio Advisor

The Partnership’s portfolio advisor announced that effective June 4, 2012 it has changed its name to Goodman Investment Counsel Inc. (formerly Ned Goodman Investment Counsel Ltd., the “Portfolio Advisor”).

Changeover to International Financial Reporting Standards

In accordance with the Canadian Accounting Standards Board proposals, effective January 1, 2011, International Financial Reporting Standards (“IFRS”) replaced Canadian GAAP for publicly accountable enterprises. However, in January 2011 and again in December 2011, the Canadian Accounting Standards Board approved deferral of the effective date for the changeover to IFRS for investment funds. Consequently, IFRS will be applicable to the Partnership for the fiscal year beginning January 1, 2014.

CMP 2012 Resource Limited Partnership

MANAGEMENT REPORT OF FUND PERFORMANCE

Dundee Securities Ltd. (“the Manager”) has already initiated the process of developing its IFRS changeover plan by performing an impact assessment and identifying differences between current Canadian GAAP and IFRS. Key elements of the plan include: (i) continuing to monitor and analyze differences between IFRS and Canadian GAAP through 2012; (ii) determining appropriate changes to the Partnership’s accounting policies, if any, (iii) amending future financial statement disclosures through first half of 2013; (iv) working with our valuation agents in implementing the required Partnership’s accounting policies, if any, during the second half of 2013; and (v) amending templates to future financial statement disclosures through 2013 and early 2014.

In May 2011, the International Accounting Standards Board issued IFRS 13 Fair Value Measurement, which defines fair value, sets out a single IFRS framework for measuring fair value and requires disclosure about fair value measurements. It only applies when other IFRSs require or permit fair value measurement. If an asset or a liability measured at fair value has a bid price and an ask price, it requires valuation to be based on a price within the bid-ask spread that is most representative of fair value. It allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurements within a bid-ask spread. This may result in elimination of the differences between the net assets per series unit and NAV per series unit at the financial statements reporting dates.

The Manager will continue to evaluate potential changes to the financial statements along with the impact on accounting policies, business functions, information technology and controls.

Related Party Transactions

The following arrangements result in fees paid by the Partnership to the Manager or to companies affiliated with the Partnership:

Initial Offering of the Partnership

The Partnership paid agents’ fees of 5.75% for each unit sold in connection with the offering of the Partnership. The Manager, in its capacity as an investment dealer, received approximately \$34,000 of these fees.

Management Fees

The Partnership pays the Manager a management fee for the continuous advice, recommendations and services provided to the Partnership. This includes acting as the manager, portfolio advisor and principal distributor to the Partnership. The Manager is also responsible for the Partnership’s day-to-day operations. The Partnership incurred a management fee, inclusive of sales tax, of approximately \$705,000.

Operating Expenses and Administrative Services

The Partnership is responsible for its operating expenses relating to the carrying on of its business, including custodial services, legal, Independent Review Committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are calculated and accrued daily based on the average net asset value the Partnership. The Manager pays for such expenses on behalf of the Partnership, except for certain expenses such as interest, and is then reimbursed by the Partnership. In addition, the Partnership paid the

Manager \$128,000 for administrative services performed by the Manager during the period.

Performance Bonus

The Manager is entitled to a performance bonus to be paid by the Partnership equal to 20% of the amount by which the net asset value per unit exceeds \$1,120 on the performance bonus date. The performance bonus is calculated on a per unit basis and multiplied by the number of units existing at the performance bonus date. The performance bonus date is on the earlier of the date on which the Partnership assets are transferred to DMP Resource Class of Dynamic Managed Portfolios Ltd. and the day immediately prior to the date of dissolution or termination of the Partnership. The performance bonus will be calculated on the performance bonus date and paid as soon as practicable thereafter. As at June 30, 2012, the Partnership accrued a performance bonus, inclusive of sales tax, of nil.

Underwriting of Securities

The Partnership invested in securities offerings where the Manager, in its capacity as an investment dealer, acted as underwriter in the offering of the securities. For these transactions, the Manager received exemptive relief from securities regulatory authorities or received approval from the Independent Review Committee established for the Partnership in accordance with requirements of National Instrument 81-107 – “Independent Review Committee for Investment Funds”.

Standing Instructions from the Independent Review Committee

Pursuant to National Instrument 81-107 – “Independent Review Committee for Investment Funds”, the Manager has appointed an independent review committee (the “IRC”) to oversee the Partnership. Costs and expenses, including the remuneration of IRC members, the costs of legal and other advisors to, and legal and other services for, IRC members, and insurance costs are chargeable to the Partnership. As at June 30, 2012, the IRC consisted of three members, all of whom are independent of the Manager.

The Partnership received the following standing instructions with respect to related party transactions from the IRC:

- (i) paying brokerage commissions to the Manager for effecting security transactions on an agency and principal basis on behalf of the Partnership (referred to as “Related Brokerage Commissions”);
- (ii) subject to receipt of exemptive relief in certain circumstances, purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- (iii) executing foreign exchange transactions with the Manager on behalf of the Partnership; and
- (iv) participating in an underwriting involving the Manager acting in its capacity as an investment dealer on behalf of the issuer.

The applicable standing instructions require that the Manager establish policies and procedures that it will follow with respect to related party transactions. The Manager is required to advise the IRC of any material breach of a condition of the standing instructions. The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager or Portfolio Advisor, as applicable, free from any influence by any related

CMP 2012 Resource Limited Partnership

MANAGEMENT REPORT OF FUND PERFORMANCE

entity and without taking into account any consideration to the Manager or any associate or affiliate of the Manager; (b) represents the business judgment of the Manager or Portfolio Advisor, as applicable, uninfluenced by considerations other than the best interests of the Partnership; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager or Portfolio

Advisor, as applicable, under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Partnership relied on IRC standing instructions regarding related party transactions during the period.

Financial Highlights

The following tables show selected key financial information about the Partnership and are intended to help readers understand the Partnership's financial performance for the periods indicated. The information on the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time.

The Partnership's Net Assets per Partnership Unit⁽¹⁾

(commencement of operations February 15 2012)

	June 30, 2012
Initial offering price	\$1,000.00
Issuance costs	(63.50)
Net assets, beginning of period⁽¹⁾⁽²⁾	\$936.50
Increase (decrease) in net assets from operations:	
Total revenue	\$0.23
Total expenses	(9.68)
Realized gain (loss) for the period	-
Unrealized gain (loss) for the period	(196.70)
Total increase (decrease) in net assets from operations⁽²⁾	\$(206.15)
Distributions to unitholders:	
From income (excluding dividends)	\$-
From dividends	-
From net realized gain (loss) on investments	-
From return of capital	-
Total annual distributions⁽²⁾	\$-

Portfolio turnover rate ⁽⁵⁾	n/a
Net asset value per unit⁽⁶⁾	\$728.00

CMP 2012 Resource Limited Partnership

MANAGEMENT REPORT OF FUND PERFORMANCE

* Annualized, except for issuance costs included in the MER which are treated as one-time expenses.

- (1) This information is derived from the Partnership's unaudited (for current period end) financial statements. Net assets per unit presented in the financial statements may differ from net asset value calculated for pricing purposes. An explanation of these differences can be found in the notes to the financial statements. Some of the nil balances reported in the Financial Highlights may include amounts that are rounded to zero.
- (2) Net assets per unit and distributions per unit are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding over the fiscal period.
- (3) The management expense ratio ("MER") is based on the total expenses (excluding commissions and other portfolio transaction costs) of the Partnership for the stated period expressed as an annualized percentage of daily average net asset value during the period. The June 30, 2012 MER is an annualized MER, which is calculated in accordance with regulatory requirements. This ratio is subject to change due to fluctuations in the average net asset value, and in the expenses charged to the Partnership over the remainder of the fiscal year, and may differ significantly from the final MER for the year ending December 31, 2012. The following MER statistics are presented for information purposes:

(percent %)	June 30, 2012
MER excluding issuance cost	2.28%
MER excluding issuance cost and sales tax	2.04%

- (4) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs of the Partnership expressed as an annualized percentage of daily average net asset value of the Partnership during the period.
- (5) The Partnership's portfolio turnover rate indicates how actively the Portfolio Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to an investment fund buying and selling all of the securities in its portfolio once in the course of the fiscal period. The higher the portfolio turnover rate in a period, the greater the trading costs payable by an investment fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of an investment fund. The portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period, excluding any portfolio re-balancing transactions following a merger and short-term investments maturing in less than one year, by the average market value of investments during the period.
- (6) National Instrument 81-106 – "Investment Fund Continuous Disclosure" ("NI 81-106") requires all investment funds to calculate net asset value for all purposes other than for financial statements in accordance with part 14.2, which differs in some respects from the requirements of Section 3855 of Canadian GAAP. Canadian GAAP includes the requirement that the fair value of financial instruments listed on a recognized public stock exchange be valued at their last bid price for securities held in a long position and at their last ask price for securities held in a short position, instead of their close price or the last sale price of the security for the day as required by NI 81-106. This results in differences between net assets calculated based on Canadian GAAP ("GAAP Net Assets") and net asset value calculated based on NI 81-106 ("Transactional NAV"). A reconciliation between GAAP Net Assets and Transactional NAV is provided below.

Reconciliation of GAAP Net Assets and Transactional NAV

	Total (\$000's)	Per Unit (\$)
Transactional NAV (net asset value)	72,801	728.00
Application of Section 3855 adjustment	235	2.35
GAAP Net Assets (net assets)	73,036	730.35

Management Fee

The management fee is an annualized rate based on the net asset value of the Partnership and is accrued daily and paid monthly as a percentage of the month end net asset value. Of the management fee incurred by the Partnership, 100% is attributed to the portfolio advisory services.

Past Performance

The following shows the past performance of the Partnership and will not necessarily indicate how the Partnership will perform in the future. In addition, the information does not take into account optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart shows the annual performance of the Partnership and illustrates how the Partnership's performance has varied from year to year. The chart shows, in percentage terms, how much an investment held on the first day of each fiscal year would have increased or decreased by the last day of each fiscal year.

MANAGEMENT REPORT OF FUND PERFORMANCE

Caution regarding forward-looking statements

Certain portions of this report, including, but not limited to, “Recent Developments”, may contain forward-looking statements about the Partnership, as applicable, including statements with respect to strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects and possible future Partnership action is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, current assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Partnership. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above mentioned list of important factors is not exhaustive.

We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing any undue reliance on forward-looking statements. Further, you should be aware of the fact that the Partnership has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next management report of partnership performance.

CMP 2012 Resource Limited Partnership

DISCUSSION ON FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (unaudited)

As at June 30, 2012

Risk Management

CMP 2012 Resource Limited Partnership (the "Partnership") aims to provide for a tax-assisted investment in a diversified portfolio of flow-through shares and other securities, if any, of resource companies with a view to earning income and achieving capital appreciation for limited partners.

The investment activities of the Partnership expose it to a variety of financial risks (for a general discussion of these risks see Note 7 of the financial statements). The Statement of Investments of the Partnership groups the securities held by asset type, geographic region and/or market segment. The Manager seeks to minimize potential adverse effects of these risks on the Partnership's performance by employing and overseeing professional and experienced portfolio advisors that regularly monitor the Partnership's optimal asset mix and market events, as well as diversify the investment portfolio within the constraints of the investment objective.

To assist in managing risks, the Manager has established and maintains a governance structure that oversees the Partnership's investment activities and monitors compliance with the Partnership's stated investment objectives and guidelines. Significant risks that are relevant to the Partnership are discussed below.

Credit Risk

The Partnership may be exposed to credit risk, which is the risk that a counterparty will fail to discharge a commitment when due. Credit risk may be occasioned by debt instruments (bank loans, bonds and debentures), securities transactions (including warrants) or through the use of custody, loan and/or bank accounts.

The Partnership had no significant exposure to debt instruments as at June 30, 2012.

All investment transactions are settled for on delivery, minimizing the risk of default on investment transactions because delivery of securities on a sale is only made once the custodian has received payment and, conversely, payment is only made on a purchase once the securities have been delivered to the custodian. When the Partnership trades in listed or unlisted securities through a broker, the Partnership only transacts with reputable brokers that are duly registered with applicable securities regulators.

The Partnership only deposits assets with reputable companies that are eligible to act as a custodian under the provisions of National Instrument 81-102 – "Mutual Funds" and there are government regulations intended to protect investor property in the event of bankruptcy or insolvency of a trust company such as the custodian or a bank. In the event of bankruptcy or insolvency of such companies, the securities or other assets deposited there with may be exposed to credit risk or access to those securities or other assets may be delayed or limited.

Interest Rate Risk

The following table summarizes the Partnership's exposure to interest rate risks as at June 30, 2012.

Maturity Date*	Fair Value (in 000s)
	June 30, 2012
3 months or less	\$(6,350)
Over 3 months to 1 year	—
Over 1 year to 5 years	—
Over 5 years	—
Total	\$(6,350)

* Earlier of maturity date or interest reset date. Excludes cash and overdrafts.

If prevailing interest rates had been raised or lowered by 1%, with all other variables held constant, net assets of the Partnership would have decreased or increased, respectively, by approximately \$64,000. In practice, actual results will differ from this sensitivity analysis as the components of the Partnership's portfolio are not identical to the components of the market and the difference could be material.

Other Price Risk

Other price risk is the risk that the fair value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) caused by factors specific to a security, its issuer or all factors affecting a market or a market segment. Exposure to other price risk is mainly in equities and commodities, if applicable. As at June 30, 2012, approximately 48% of the Partnership's net assets were exposed to other price risk. If prices of these investments had decreased or increased by 5%, with all other variables held constant, net assets of the Partnership would have decreased or increased, respectively, by approximately \$1,764,000. In practice, actual results will differ from this sensitivity analysis and the difference could be material.

Currency Risk

The Partnership did not have significant currency risk exposure as at June 30, 2012.

The accompanying notes are an integral part of these financial statements.

CMP 2012 Resource Limited Partnership

DISCUSSION ON FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (cont'd) (unaudited)

As at June 30, 2012

Financial Instruments

Fair Value Hierarchy

The following table summarizes the fair value hierarchy of the Partnership's financial assets and liabilities ("financial instruments") as at June 30, 2012. Further details of the required disclosures are provided in Note 8 of the financial statements.

(In 000's)	June 30, 2012			
	Level 1	Level 2	Level 3	Total
Equities	\$23,096	\$9,249	\$2,125	\$34,470
Preferred shares	—	—	—	—
Bonds and debentures	—	—	—	—
Underlying funds	—	—	—	—
Warrants	—	814	—	814
Purchased options	—	—	—	—
Total Investments	23,096	10,063	2,125	35,284
Short-term investments	—	—	—	—
Derivative assets	—	—	—	—
Derivative liabilities	—	—	—	—
Total Financial Instruments	\$23,096	\$10,063	\$2,125	\$35,284

Transfers Between Levels

During the period ended June 30, 2012, there were no transfers between Level 1 and Level 2.

Reconciliation of Level 3 Financial Instruments

The following table presents the movement in the Partnership's Level 3 financial instruments for the periods ended June 30, 2012 and December 31, 2011.

(In 000's)	June 30, 2012		
	Equities	Other	Total
Beginning of period	\$—	\$—	\$—
Purchases	2,550	—	2,550
Sales	—	—	—
Transfers into Level 3	—	—	—
Transfers out of Level 3	—	—	—
Net realized gains (losses)	—	—	—
Net change in unrealized appreciation (depreciation)*	(425)	—	(425)
End of period	\$2,125	\$—	\$2,125

* Net change in unrealized appreciation (depreciation) for Level 3 financial instruments held as at June 30, 2012, was \$(425,000).

The net realized gains (losses) in the table above are reflected in the Statement of Operations in "Net realized gain (loss) on sale of investments". The net change in unrealized appreciation (depreciation) relates to those financial instruments held by the Partnership as at June 30, 2012, and are reflected in the Statement of Operations in "Change in unrealized appreciation (depreciation) in value of investments".

If the significant unobservable inputs used in determining the fair value of the Partnership's Level 3 financial instruments decreased or increased by 5%, with all other variables held constant, net assets of the Partnership would have decreased or increased, respectively, by approximately \$106,250.

CMP 2012 Resource Limited Partnership

NOTES TO THE FINANCIAL STATEMENTS (unaudited)

For the periods indicated in Note 1

1. The Partnership

a) Organization of the Limited Partnership

CMP 2012 Resource Limited Partnership (the “Partnership”) was formed as a limited partnership under the laws of the Province of Ontario. The Partnership aims to provide for a tax-assisted investment in a diversified portfolio of flow-through shares and other securities, if any, of resource companies with a view to earning income and achieving capital appreciation for limited partners. The Partnership commenced operations on February 15, 2012.

CMP 2012 Corporation (the “General Partner”) is the General Partner of the Partnership, as indicated in the Limited Partnership Agreement. The General Partner is responsible for the management of the Partnership in accordance with the terms and conditions of the partnership agreement. The General Partner is a wholly-owned subsidiary of the Manager. The Partnership has retained Dundee Securities Ltd. (the “Manager”) as the investment fund manager to provide investment, management, administrative and other services. The Manager, a wholly-owned subsidiary of Dundee Corporation, is a full-service Canadian investment dealer.

b) Financial Reporting Dates

The Statement of Investments is at June 30, 2012. The Statement of Net Assets is as at June 30, 2012. The Statements of Operations, Changes in Net Assets and Cash Flows are for the period from commencement of operations on February 15, 2012 to June 30, 2012. Throughout this document, reference to the period refers to the reporting period described here.

These financial statements present the financial position and results of operations of the Partnership and as such, do not include all assets, liabilities, revenues or expenses of the partners.

c) Transactions of the Manager

All directors, officers and employees of the Manager (“Employees”) are subject to its Compliance Manual (the “Manual”) and all Employees involved in its investment fund business are also subject to the Investment Funds Supplement to the Manual (the “Supplement”). The Manual governs all aspects of the Manager’s investment dealer business and ensures compliance with requirements of IIROC, while the Supplement implements additional procedures and protections for interests of all investors of the Partnership and, as such, governs its investment funds business. The Board of Directors of the Manager has reviewed and approved the Manual and the Supplement and the independent review committee of the Partnership has reviewed and approved the Supplement. The Manual includes a Trading Policy applicable to all Employees and the Supplement includes additional trading restrictions applicable to Employees involved in its investment fund business.

d) Name Change of Portfolio Advisor

The Partnership’s portfolio advisor announced that effective June 4, 2012 it has changed its name to Goodman Investment Counsel Inc. (formerly Ned Goodman Investment Counsel Ltd., the “Portfolio Advisor”).

2. Summary of Significant Accounting Policies and Basis of Presentation

The financial statements of the Partnership are prepared in accordance with Canadian generally accepted accounting principles (“Canadian GAAP”). The following is a summary of significant accounting policies used by the Partnership:

a) Use of Estimates

The preparation of the financial statements in accordance with Canadian GAAP requires the Manager to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are made based on information available as at the date of issuance of the financial statements. Actual results could materially differ from those estimates.

Key areas of estimation, where the Manager has made complex or subjective judgments, include the determination of fair values of financial instruments that are not quoted in an active market. The use of valuation techniques for financial instruments that are not quoted in an active market requires the Manager to make assumptions that are based on market conditions existing as at the date of the financial statements. Changes in these assumptions as a result of changes in market conditions could affect the reported fair value of financial instruments.

b) Valuation of Investments

In accordance with Section 3855, “Financial Instruments – Recognition and Measurement”, the Partnership’s investments are deemed to be categorized as held for trading and are required to be recorded at fair value. The main impact of Section 3855 relates to the determination of the fair value of financial instruments listed on an active market with the bid price instead of the closing price.

National Instrument 81-106 – “Investment Fund Continuous Disclosure” (“NI 81-106”) requires all investment funds to calculate net asset value for all purposes other than for financial statements in accordance with part 14.2, which differs in some respects from the requirements of Section 3855

CMP 2012 Resource Limited Partnership

NOTES TO THE FINANCIAL STATEMENTS (cont'd) (unaudited)

For the periods indicated in Note 1

2. Summary of Significant Accounting Policies and Basis of Presentation (cont'd)

of Canadian GAAP. Canadian GAAP includes the requirement that the fair value of financial instruments listed on a recognized public stock exchange be valued at their last bid price instead of their close price or the last sale price of the security for the day as required by NI 81-106. This results in differences between net assets calculated based on Canadian GAAP ("GAAP Net Assets") and net asset value calculated based on NI 81-106 ("Transactional NAV"). A reconciliation between GAAP Net Assets per unit and Transactional NAV per unit is provided in Note 6.

The fair value of the Partnership's investments as at the financial reporting date is determined as follows:

- i) All long securities listed on a recognized public stock exchange are valued at their last bid price. Securities that are traded on an over-the-counter market basis are valued at the last bid price as quoted by a major dealer.

Investments in securities having no quoted market values or in illiquid securities are valued using valuation techniques. Valuation techniques include, but are not limited to, referencing the current value of similar instruments, using recent arm's length market transactions, discounted cash flow analyses or other valuation models.

The fair value of certain securities may be estimated using valuation techniques based on assumptions that are not supported by observable market inputs. In a situation where, in the opinion of the Manager, a market quotation for a security is inaccurate, not readily available or does not accurately reflect fair value, the fair value is determined by the Manager.

- ii) Bonds and debentures are valued at their last evaluated bid price received from recognized investment dealers.
- iii) Short-term securities are valued using market quotations or amortized cost plus accrued interest, both of which approximate fair value.
- iv) Unlisted warrants are valued based on a pricing model which considers factors such as the market value of the underlying security, strike price, volatility and terms of the warrant.
- v) The fair value of investments and other assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the rate of exchange established at noon on each day on which the Toronto Stock Exchange is open for business ("valuation date").
- vi) In accordance with the Emerging Issues Committee Abstract 173, "Credit Risk and the Fair Value of Financial Assets and Financial Liabilities", the Manager has reviewed its policy with respect to valuation of assets and liabilities and believes that the fair values ascribed to the financial assets and financial liabilities in these financial statements incorporate appropriate levels of credit risk.

c) Other Assets and Liabilities

Accrued interest and dividends receivable, amount due from brokers and other assets are designated as loans and receivables and are recorded at amortized cost. Similarly, accrued expenses, amounts due to brokers and other liabilities are designated as other financial liabilities and are recorded at amortized cost. These balances are short-term in nature, therefore, amortized cost approximates fair value for these assets and liabilities.

d) Investment Transactions

Investment transactions are recorded on a trade date basis. The cost of investments represents the amount paid for each security and is determined on an average cost basis excluding transaction costs.

e) Transaction Costs

Transaction costs are incremental costs directly attributable to the acquisition, issue or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges and transfer taxes and duties. In accordance with Section 3855, transaction costs are expensed and are included in the Statement of Operations in "Transaction costs".

f) Cash and Cash Equivalents

Cash and cash equivalents is comprised of cash on deposit, short-term debt instruments with original terms to maturity of less than 90 days and bank overdrafts, as applicable.

g) Income Recognition

Income from investments held is recognized on an accrual basis. Interest income is accrued as earned and dividend income and distributions from investment trusts are recognized on the ex-dividend date.

Distributions received from investment trusts are recorded as income, capital gains or a return of capital, based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from investment trusts that are treated as a return of capital for income tax purposes reduce the average cost of the underlying investment trust on the Statement of Investments.

For income tax purposes, the adjusted cost base of flow-through shares is reduced by the amount of expenditures renounced to the Partnership. Upon disposition of such shares, a capital gain will result and will be allocated to the limited partners based upon their proportionate share of the Partnership.

CMP 2012 Resource Limited Partnership

NOTES TO THE FINANCIAL STATEMENTS (cont'd) (unaudited)

For the periods indicated in Note 1

2. Summary of Significant Accounting Policies and Basis of Presentation (cont'd)

h) Translation of Foreign Currency

The reporting currency for the Partnership is the Canadian dollar which is the functional currency. Any other currency other than Canadian dollars represents foreign currency to the Partnership.

The fair value of investments and other assets and liabilities denominated in a foreign currency are translated into Canadian dollars at the rate of exchange which is current on the valuation date. Transactions denominated in a foreign currency are translated into Canadian dollars at the rate of exchange prevailing at the date of the transactions. Realized and unrealized foreign currency gains or losses on investments are included in the Statement of Operations in "Net realized gain (loss) on sale of investments" and "Change in unrealized appreciation (depreciation) in value of investments", respectively. Realized and unrealized foreign currency gains or losses on monetary assets and liabilities other than investments denominated in foreign currencies are included in the Statement of Operations in "Net realized and change in unrealized foreign exchange gain (loss)".

i) Valuation of Partnership Units for Transactional NAV Purposes

The net asset value per unit of the Partnership is calculated at the end of each valuation date by dividing the net asset value of the Partnership by its outstanding units.

j) Increase (Decrease) in Net Assets from Operations per Unit

The "Increase (decrease) in net assets from operations per unit" is disclosed in the Statement of Operations and represents the increase or decrease in net assets from operations for the period divided by the average number of units outstanding during the period.

k) Allocation of Partnership Income and Loss

99.99% of the income or loss of the Partnership for the fiscal year is allocated to limited partners at the end of the fiscal year in proportion to the number of limited Partnership units owned. The Partnership is not itself a taxable entity. Accordingly, no provision for income tax is required.

The General Partner is entitled to 0.01% of the net income or loss of the Partnership. Net Income is determined in accordance with GAAP.

l) Non-zero Amounts

Some of the balances reported in the financial statements may include amounts that are rounded to zero.

3. Borrowing

The Partnership established credit facilities with a Canadian chartered bank (the "Bank") up to an amount not exceeding 7.75% of the gross proceeds raised at inception. The loan proceeds were used for the payment of issuance costs and the Partnership provided the Bank with a security interest in all of the assets of the Partnership. The maximum and minimum amounts borrowed during the period ended June 30, 2012 were \$6,350,000 and \$6,350,000, respectively. The average interest rate on the outstanding balances during the period ended June 30, 2012 was 2.8%.

As at June 30, 2012, the loan outstanding represents a 90-day banker's acceptance ("BA") credit facility with a face value of \$6,350,000, representing 8.7% of net assets.

The interest paid on the drawdown or renewal of the BA is deferred and amortized over the term of the BA. The unamortized portion of the deferred interest is included in the Statement of Net Assets in "Accrued interest, dividends and other". For the period ended June 30, 2012, the Partnership incurred interest expense on the BA of approximately \$78,000.

4. Expenses and Related Party Transactions

a) Management Fee

The Partnership pays the Manager a management fee for the continuous advice, recommendations and services provided to the Partnership. This includes acting as the manager, portfolio advisor and principal distributor to the Partnership. The Manager is also responsible for the Partnership's day-to-day operations.

The management fee is an annualized rate of 2% based on the net asset value of the Partnership and is accrued daily and paid monthly in arrears as a percentage of the month end net asset value, in accordance with the terms of the management agreement for the Partnership.

In consideration for portfolio advisory services received from the Manager, the Partnership incurred a management fee, inclusive of sales tax, of approximately \$705,000.

CMP 2012 Resource Limited Partnership

NOTES TO THE FINANCIAL STATEMENTS (cont'd) (unaudited)

For the periods indicated in Note 1

4. Expenses and Related Party Transactions (cont'd)

b) Performance Bonus

The Manager is entitled to a performance bonus to be paid by the Partnership equal to 20% of the amount by which the net asset value per unit exceeds \$1,120 on the performance bonus date. The performance bonus is calculated on a per unit basis and multiplied by the number of units existing at the performance bonus date. The performance bonus date is on the earlier of the date on which the Partnership assets are transferred to DMP Resource Class of Dynamic Managed Portfolios Ltd. and the day immediately prior to the date of dissolution or termination of the Partnership. The performance bonus will be calculated on the performance bonus date and paid as soon as practicable thereafter. As at June 30, 2012, the Partnership accrued a performance bonus, inclusive of sales tax, of nil.

c) Operating Expenses and Administrative Services

The Partnership is responsible for its operating expenses relating to the carrying on of its business, including custodial services, legal, Independent Review Committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are accrued daily. The Manager pays for such expenses on behalf of the Partnership, except for certain expenses such as interest and is then reimbursed by the Partnership.

In addition, the Partnership paid the Manager \$128,000 for administrative services performed by the Manager during the period.

d) Broker Commissions

Brokerage commissions of nil were paid on securities transactions during the period. Of this amount, the Manager received nil. Also included in the total commissions are soft dollar commissions of nil. Soft dollar commissions reflect amounts paid indirectly to third parties through a broker or dealer for services received by the Partnership for services other than trading execution.

Brokerage commissions paid on securities transactions are considered to be part of operating expenses. These commissions are not included in the cost of purchasing securities, nor are they netted out of the proceeds from selling securities.

e) Private Placements

In addition to the commissions paid on security transactions, the Partnership invests in flow-through shares through registered dealers, including the Manager. Commissions or finder's fees on flow-through shares are paid directly from the issuer of the shares to the broker/dealer. In certain circumstances, the Manager and the other agents may be entitled to receive fees and, in some cases, rights to purchase shares in connection with the sale of flow-through shares to the Partnership.

f) Initial Offering of the Partnership

The Partnership paid agents' fees of 5.75% for each unit sold in connection with the offering of the Partnership. The Manager received approximately \$34,000 of these fees.

g) Standing Instructions from the Independent Review Committee

Pursuant to National Instrument 81-107 – "Independent Review Committee for Investment Funds", an independent review committee was appointed. The Manager has appointed an independent review committee (the "IRC") to oversee the Partnership. Costs and expenses, including the remuneration of IRC members, the costs of legal and other advisors to, and legal and other services for IRC members, and insurance costs are chargeable to the Partnership. As at June 30, 2012, the IRC consisted of three members, all of whom are independent of the Manager.

The Partnership received the following standing instructions with respect to related party transactions from the IRC:

- (i) paying brokerage commissions to the Manager for effecting security transactions on an agency and principal basis on behalf of the Partnership (referred to as "Related Brokerage Commissions");
- (ii) subject to receipt of exemptive relief in certain circumstances, purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- (iii) executing foreign exchange transactions with the Manager on behalf of the Partnership; and
- (iv) participating in an underwriting involving the Manager, acting in its capacity as an investment dealer on behalf of the issuer.

The applicable standing instructions require that the Manager establish policies and procedures that it will follow with respect to related party transactions. The Manager is required to advise the IRC of any material breach of a condition of the standing instructions. The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager or the Portfolio Advisor, as applicable, free from any influence by any related entity and without taking into account any consideration to the Manager or any associate or affiliate of the Manager; (b) represents the business judgment of the Manager or the Portfolio Advisor, as applicable, uninfluenced by considerations other than the best interests of the Partnership; and (c) is made in compliance with the Manager's written policies and procedures.

CMP 2012 Resource Limited Partnership

NOTES TO THE FINANCIAL STATEMENTS (cont'd) (unaudited)

For the periods indicated in Note 1

4. Expenses and Related Party Transactions (cont'd)

Transactions made by the Manager or the Portfolio Advisor, as applicable, under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Partnership relied on IRC standing instructions regarding related party transactions during the period.

5. Partners' Capital

The Partnership's capital represents the net assets of the Partnership and is comprised of issued units and retained earnings. The Partnership is not subject to any regulatory requirements on capital. The capital of the Partnership is managed in accordance with the Partnership's investment objectives, policies and restrictions, as outlined in the Partnership's prospectus. The Partnership units were issued at a price of \$1,000 per unit, subject to a minimum subscription of five units for \$5,000. Prior to July 1, 2014, the Partnership intends to transfer its assets to Dynamic Managed Portfolios Ltd. in exchange for redeemable shares of DMP Resource Class. Pursuant to the terms of the Transfer Agreement and the Partnership Agreement, upon completion of the Mutual Fund Rollover Transaction and the dissolution of the Partnership, Limited Partners would receive their pro rata share of the DMP Resource Class shares on a tax-deferred basis.

All Partnership units are of the same class with equal rights and privileges, including equal participation in any distribution made by the Partnership and the right to one vote at any meeting of the limited partners. On February 15, 2012, 100,000 Partnership units were issued at the initial offering. In addition, one Partnership unit was issued to the General Partner at the date of formation of the Partnership.

Summaries of the outstanding Partnership units and changes to undistributed income are outlined in the following tables:

Outstanding Partnership Units	June 30, 2012
Beginning of period	—
Subscriptions	100,001
Reinvestments	—
Redemptions	—
End of period	100,001

Undistributed income (000s)	June 30, 2012
Undistributed income, beginning of period	—
Increase (decrease) in net assets from operations	(20,615)
Undistributed income, end of period	(20,615)

6. Reconciliation of GAAP Net Assets per Unit and Transactional NAV per Unit

The table below provides a comparison of the GAAP Net Assets per unit and Transactional NAV per unit. The primary reason for the difference between the GAAP Net Assets per unit and Transactional NAV per unit is described in Note 2 above.

	June 30, 2012
Transactional NAV per unit	728.00
GAAP Net Assets per unit	730.35

7. Risk Management

Investment activities of the Partnership expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, other price risk and currency risk). The level of risk depends on the Partnership's investment objectives and the type of securities it invests in.

The Manager seeks to minimize these risks by employing experienced portfolio managers that will manage the security portfolio of the Partnership on a daily basis according to market events and the investment objectives of the Partnership. Section 3862 and Section 3863 disclosures that are specific to the Partnership are presented in the Discussion on Financial Risk Management and Financial Instruments under the Statement of Investments. The sensitivity analysis shown in the Discussion on Financial Risk Management and Financial Instruments may differ from actual results and the difference could be significant.

The Manager maintains a risk management practice that includes monitoring compliance with investment restrictions to ensure that the Partnership is being managed in accordance with the Partnership's stated investment objectives, strategies and securities regulations. In addition, the below noted risk positions are monitored by the portfolio managers on a regular basis and reviewed by the Credit, Compliance & Risk Committee on a quarterly basis.

Credit risk

Credit risk is the risk that a counterparty will fail to discharge a commitment when due. The fair value of a financial instrument takes into account the credit rating of its issuer, and accordingly, represents the maximum credit risk exposure of the Partnership. Exposure to credit risk is mainly in debt securities (such as bank loans and bonds and debentures). All transactions in securities are settled or paid for upon delivery through brokers. As

CMP 2012 Resource Limited Partnership

NOTES TO THE FINANCIAL STATEMENTS (cont'd) (unaudited)

For the periods indicated in Note 1

7. Risk Management (cont'd)

such, credit risk is considered minimal in the Partnership on investment transactions, as delivery of securities sold is made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation. In addition, custody transactions are carried out by counterparties that have a Standard & Poor's credit rating of A or higher.

Liquidity risk

Liquidity risk is the risk that the Partnership may not be able to settle or meet its obligations on time or at a reasonable price. Therefore, in order to maintain sufficient liquidity, the Partnership invests its assets in securities that are traded in an active market and can be readily disposed. The Partnership also invests in securities that are not traded in an active market and may be illiquid. Such investments are identified as private and restricted securities in the Statement of Investments. In addition, the Partnership aims to retain sufficient cash and cash equivalent positions to maintain liquidity.

Interest rate risk

Interest rate risk is the risk that the fair value of the Partnership's interest-bearing investments will fluctuate due to changes in the prevailing levels of market interest rates. Exposure to interest rate risk is mainly in debt securities (such as bonds and debentures). Other assets and liabilities are short-term in nature and are non-interest bearing. There is minimal sensitivity to interest rate fluctuations on cash and cash equivalents invested at short-term market interest rates.

Other Price risk

Other price risk is the risk that the fair value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) caused by factors specific to a security, its issuer or all factors affecting a market or a market segment. Exposure to other price risk is mainly in equities and commodities. The maximum risk resulting from these financial instruments is equivalent to their fair value.

Currency risk

Currency risk is the risk that the fair value of a financial instrument will fluctuate due to changes in foreign exchange rates. Exposure to currency risk is mainly in financial instruments (including cash and cash equivalents) that are denominated in a currency other than Canadian dollars, which represents the functional currency of the Partnership. Therefore the Partnership's financial instruments that are denominated in other currencies will fluctuate due to changes in the foreign exchange rates of those currencies in relation to the Partnership's functional currency. Foreign currencies of issued bonds are listed in the investment portfolio. Foreign stocks are also exposed to currency risk since the value of such stocks are converted to Canadian dollars to determine their fair value.

8. Financial Instruments

Fair Value Hierarchy

CICA Handbook Section 3862, *Financial Instruments – Disclosures*, requires disclosure regarding the valuation methods and assumptions used to measure financial instruments at fair value. The Partnership uses the following inputs within the fair value hierarchy for determining and disclosing the fair value of financial instruments:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 1 financial instruments include actively listed equities and other publicly quoted investments. The Manager does not adjust the quoted price for these instruments.

Level 2 – Inputs to the valuation methodology include quoted prices in active markets for similar assets and liabilities, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Level 2 financial instruments are those that trade in markets that are not considered to be active but are valued based on quoted market prices or dealer quotations supported by observable inputs or adjusted for fair value factors. These include investment-grade corporate bonds and certain listed equities. As Level 2 investments include positions that are not traded in active markets or may be subject to sale restrictions, valuations may be adjusted to reflect illiquidity which is generally based on available market information.

Level 3 – Inputs to the valuation methodology is based on unobservable market data. Level 3 financial instruments are those that have at least one significant unobservable input, as they are not based on quoted market prices. Level 3 instruments include private equity and private debt securities. As observable prices are not available for these securities, the Manager has used valuation techniques to derive the fair value.

Transfers Between Levels

Fair values are classified as Level 1 when the related security is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such case, the instrument may be reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3.

Reconciliation of Level 3 Financial Instruments

Section 3862 also requires a reconciliation between the opening and closing balances for Level 3 financial instruments.

8. Financial Instruments (cont'd)

The fair value hierarchy, transfers between levels and reconciliation of Level 3 financial instruments are presented in the Discussion on Financial Risk Management and Financial Instruments under the Statement of Investments.

9. Changeover to International Financial Reporting Standards

In accordance with the Canadian Accounting Standards Board proposals, effective January 1, 2011, International Financial Reporting Standards ("IFRS") replaced Canadian GAAP for publicly accountable enterprises. However, in January 2011 and again in December 2011, the Canadian Accounting Standards Board approved deferral of the effective date for the changeover to IFRS for investment funds. Consequently, IFRS will be applicable to the Partnership for the fiscal year beginning January 1, 2014.

The Manager has already initiated the process of developing its IFRS changeover plan by performing an impact assessment and identifying differences between current Canadian GAAP and IFRS. Key elements of the plan include: (i) continuing to monitor and analyze differences between IFRS and Canadian GAAP through 2012; (ii) determining appropriate changes to the Partnership's accounting policies, if any, (iii) amending future financial statement disclosures through first half of 2013; (iv) working with our valuation agents in implementing the required Partnership's accounting policies, if any, during the second half of 2013; and (v) amending templates to future financial statement disclosures through 2013 and early 2014.

In May 2011, the International Accounting Standards Board issued IFRS 13 Fair Value Measurement, which defines fair value, sets out a single IFRS framework for measuring fair value and requires disclosure about fair value measurements. It only applies when other IFRSs require or permit fair value measurement. If an asset or a liability measured at fair value has a bid price and an ask price, it requires valuation to be based on a price within the bid-ask spread that is most representative of fair value. It allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurements within a bid-ask spread. This may result in elimination of the differences between the net assets per series unit and NAV per series unit at the financial statements reporting dates.

The Manager will continue to evaluate potential changes to the financial statements along with the impact on accounting policies, business functions, information technology and controls.
