

CMP 2016 RESOURCE LIMITED PARTNERSHIP

SEMI - ANNUAL REPORT

JUNE 30, 2016

The semi-annual management report of fund performance contains financial highlights, but does not contain the complete semi-annual or annual financial statements of the Partnership. For your reference, the semi-annual financial statements of the Partnership are attached to the semi-annual management report of fund performance. You may obtain additional copies of these documents or a copy of the annual financial statements at your request, and at no cost, by calling toll free 866.694.5672, by visiting our website at www.goodmanandcompany.com or SEDAR at www.sedar.com or by writing to us at: Goodman & Company, Investment Counsel Inc., 1 Adelaide Street East, Suite 2100, Toronto, Ontario, M5C 2V9.

Securityholders may also contact us using one of these methods to request a copy of the Partnership's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

CMP 2016 Resource Limited Partnership

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim financial statements have been prepared by Goodman & Company, Investment Counsel Inc. (“GCICI”), in its capacity as manager of CMP 2016 Resource Limited Partnership (the “Partnership”), and have been approved by the Board of Directors of Goodman GP Ltd., in Goodman GP Ltd.’s capacity as general partner (the “General Partner”) of the Partnership. The General Partner is responsible for the information and representations contained in these unaudited interim financial statements and the interim management report of fund performance.

GCICI maintains appropriate processes to provide reasonable assurance that relevant and reliable financial information is produced. The interim financial statements have been prepared in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments made by GCICI. The significant accounting policies which GCICI believes are appropriate for the Partnership are described in Note 3 to these unaudited interim financial statements.

PricewaterhouseCoopers LLP are the external auditors of the Partnership, appointed by the General Partner.

(signed)

ROBERT SELLARS
Chief Financial Officer
Goodman GP Ltd.

August 25, 2016

CMP 2016 Resource Limited Partnership

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

Investment Objective and Strategies

CMP 2016 Resource Limited Partnership (the “Partnership”) aims to provide for a tax-assisted investment in a diversified portfolio of flow-through shares and other securities, if any, of resource companies with a view to earning income and achieving capital appreciation for limited partners.

The investment strategy of the Partnership entails initially investing primarily in flow-through shares of resource companies engaged in oil and gas or mining exploration, development and/or production or certain energy production that may incur Canadian renewable and conservation expense. The Partnership intends to invest such that limited partners with sufficient income will be entitled to claim certain investment tax credits, as well as deductions for Canadian federal income tax purposes in respect of Canadian exploration expense incurred and renounced to the Partnership. For tax purposes, any sale of flow-through shares generally is expected to result in a capital gain equal to the net proceeds as the cost of the flow-through shares is deemed to be \$nil.

Risks

The risks associated with investing in the Partnership are as described in the prospectus and are incorporated by reference herein.

Results of Operations¹

For the period from commencement of operations on February 19, 2016, to June 30, 2016², the units of the Partnership (the “Units”) generated a total return of approximately negative 7.0% on a net asset value basis. Over the same period, the S&P/TSX Composite Index returned positive 11.1%. Unlike the returns of this index, the Partnership’s returns are reported net of all management fees and expenses. Readers are also cautioned that the Partnership’s investment mandate is significantly different from the index shown.

The Partnership’s underperformance during the period was primarily a result of issuance costs associated with the Partnership’s initial public offering of Units. Premiums paid for the tax deductions and credits associated with Canadian flow-through shares of investee companies also contributed to the Partnership’s negative returns for the period.

Bucking the trend of the past few years, commodity prices have rallied over the first six months of 2016. Gold has led the charge up 25% from the beginning of the year to its current price of \$1,322 per ounce. Oil has been the most volatile commodity over the past six months, starting at \$42 per barrel, dropping to a low of \$33 per barrel earlier in the year, and since rallying to its current price of \$49 per barrel. Copper is up 3% over the first half of 2016 but still close to multi-year lows.

Due to numerous factors, gold is once again the safe haven for economic uncertainty. Many industrialized countries are utilizing negative interest rates to try and stimulate their respective economies. The US dollar started to trade lower at the beginning of the year which was helpful to all commodities. Most recently, the Brexit vote has added risk to the world economy bringing uncertainty to the Euro and global trade.

Given the backdrop of increasing commodity prices, investors rushed back into resource equities as the sector has underperformed for the past few years. In general terms, with gold trading around \$1,000 per ounce, producing companies were breaking even, and now that gold is trading closer to \$1,300, companies have seen their profit margins increase substantially. The S&P TSX Gold index is up over 90% in the first six months of 2016, which is partially due to how depressed gold equities were going into the year. The S&P TSX Oil Index is up 34% year to date while the S&P TSX Diversified Metals Index has climbed 68% over the first six months. The base metal stocks appear to have gained through the rising tide of the other resource stocks as their respective commodities, such as copper, have had minimal gains if any.

¹ All references to net assets or net asset value in this section refer to Transactional NAV as defined in the Financial Highlights section, which may differ from IFRS Net Assets.

² Unless otherwise indicated, references to the period refer to the period from commencement of operations on February 19, 2016 to June 30, 2016 throughout this document.

CMP 2016 Resource Limited Partnership

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

To date, the Partnership has invested nearly half of its proceeds. Although it is very early to judge the top performing names in the fund, the precious metal investments have performed the best; both Brixton Minerals and Auryn Resources. The Investments that have underperformed to date have both been the uranium names, Denison Mines and UEX Corporation, but this is partially due to the premiums paid to acquire the flow through shares.

The following table highlights changes in both transactional net asset value (“Transactional NAV”) and net assets determined using International Financial Reporting Standards (“IFRS Net Assets”) during the period. Refer to the financial highlights section for further information on the differences between Transactional NAV and IFRS Net Assets.

Net Asset Value Comparison (\$CAD, in millions)

	Transactional NAV	IFRS Net Assets
Gross proceeds, initial public offering	\$22.3	\$22.3
Issuance costs	(1.6)	(1.6)
Investment performance	0.3	0.5
Net fees and expenses ^(a)	(0.3)	(0.3)
Balance, June 30, 2016	\$20.7	\$20.9

(a) Net of interest and dividend income. Transaction costs are expensed in calculating IFRS Net Assets.

Borrowing

The Partnership established credit facilities with a Canadian chartered bank (the “Bank”) up to an amount not exceeding 7.75% of the gross proceeds raised at commencement of operations. The loan proceeds were used for the payment of issuance costs, and the Partnership provided the Bank with a security interest in all of the assets of the Partnership. The maximum and minimum amounts borrowed during the period ended June 30, 2016 were approximately \$1,285,000 and \$948,000, respectively. The average annual interest rate on the outstanding balances during the period ended June 30, 2016 was 2.52%.

As at June 30, 2016, bank borrowings were approximately \$1,285,000 and represented 6.2% of Transactional NAV. For the period ended June 30, 2016, the Partnership incurred interest expense of approximately \$12,000.

Related Party Transactions

The following arrangements result in fees paid by the Partnership to Goodman & Company, Investment Counsel Inc. (“GCICI” or the “Manager”) or to companies affiliated with the Partnership.

Commissions and Related Brokerage Commissions

Brokerage commissions of approximately \$8,000 were paid on securities transactions during the period. Soft dollar commissions, if any, represent amounts paid indirectly to third parties through a broker or dealer for services received by the Partnership that do not pertain to trading execution. There were no soft dollar commissions paid by the Partnership during the period.

Management Fees

The Partnership pays the Manager a management fee for the continuous advice, recommendations and services provided to the Partnership. This includes acting as the manager, portfolio advisor and principal distributor to the Partnership. The Manager is also responsible for the Partnership’s day-to-day operations. The Partnership incurred a management fee, inclusive of sales tax, of approximately \$165,000 during the period.

Operating Expenses and Administrative Services

The Partnership is responsible for operating expenses relating to the carrying on of its business, including custodial services, legal, independent review committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are calculated and accrued daily. The Manager pays for such expenses on behalf of the Partnership, except for certain expenses such as interest, and is subsequently reimbursed by the Partnership. In addition, the Partnership incurred expenses paid or payable to the Manager, or to companies affiliated with the Manager, of approximately \$52,000 for administrative services performed by the Manager during the period. As at June 30, 2016, the Partnership owed the Manager approximately \$38,000 for expenses paid on the Partnership’s behalf.

CMP 2016 Resource Limited Partnership

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

Performance Bonus

The Manager is entitled to a performance bonus to be paid by the Partnership equal to 20% of the amount by which the Transactional NAV per Unit exceeds \$1,120 on the performance bonus date. The performance bonus is calculated on a per Unit basis and multiplied by the number of Units existing at the performance bonus date. The performance bonus date is on the earlier of the date on which the Partnership's assets are transferred to a mutual fund, and the day immediately prior to the date of dissolution or termination of the Partnership. The performance bonus will be calculated on the performance bonus date and paid as soon as practicable thereafter. As at June 30, 2016, no performance bonus was paid or payable to the Manager.

Inter-Fund Trades

The Partnership may, from time to time, enter into security trades with other investment funds managed by the Manager. These trades will be executed through market intermediaries and under prevailing market terms and conditions. Any such trades will be executed in accordance with applicable securities laws, the Manager's policies and procedures and with the approval of the IRC (see "*Standing Instructions from the Independent Review Committee*" below).

Underwriting of Securities

The Partnership may invest in securities offerings where Dundee Securities Ltd. ("DSL"), in its capacity as an investment dealer, acted as underwriter in the offering of the securities. For these transactions, the Manager will receive exemptive relief from securities regulatory authorities or receive approval from the IRC (see "*Standing Instructions from the Independent Review Committee*" below).

Standing Instructions from the Independent Review Committee

Pursuant to National Instrument 81-107 – "Independent Review Committee for Investment Funds", the Manager has appointed an independent review committee ("IRC") to oversee the Partnership. Costs and expenses directly associated with the operations of the IRC, including remuneration of IRC members, are chargeable to the Partnership. As at June 30, 2016, the IRC consisted of three members, all of whom are independent of the Manager. The Partnership paid approximately \$3,000 for IRC fees for the period ended June 30, 2016.

The Partnership received the following standing instructions with respect to related party transactions from the IRC:

- (i) paying brokerage commissions to DSL for effecting security transactions on an agency and principal basis on behalf of the Partnership (referred to as "Related Brokerage Commissions");
- (ii) subject to receipt of exemptive relief in certain circumstances, purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- (iii) executing foreign exchange transactions with DSL on behalf of the Partnership; and
- (iv) participating in an underwriting involving DSL acting in its capacity as an investment dealer on behalf of the issuer.

The applicable standing instructions require the Manager to establish policies and procedures that it will follow with respect to related party transactions. The Manager is required to advise the IRC of any material breach of a condition of the standing instructions.

The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager, free from any influence by any related entity and without taking into account any consideration to the Manager or any associate or affiliate of the Manager; (b) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Partnership; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager, under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Partnership relied on IRC standing instructions regarding related party transactions during the period.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights

The following tables show selected key financial information about the Partnership and are intended to help readers understand the Partnership's financial performance for the period indicated. The information on the following tables is based on prescribed regulations. As a result, subtotals are not expected to equal aggregate totals due to the increase in net assets from operations being based on the weighted average number of Units outstanding during the period and all other numbers being based on actual number of Units outstanding at the relevant point in time.

The Partnership's Net Assets per Unit⁽¹⁾ (Partnership commencement of operations February 19, 2016)

	June 30, 2016
Initial offering price	\$1,000.00
Issuance costs	(72.24)
Net assets, beginning of period ⁽¹⁾⁽²⁾	\$927.76
Increase (decrease) in net assets from operations:	
Total revenue	\$0.13
Total expenses	(14.15)
Realized gain for the period	7.08
Unrealized gain for the period	82.31
Total increase in net assets from operations ⁽²⁾	\$75.37
Premium paid on acquisition of flow-through shares	(\$61.43)
Net assets, end of period ⁽¹⁾⁽²⁾⁽⁶⁾	\$936.80

Ratios and Supplemental Data

Total net asset value (\$000's) ⁽⁶⁾	\$20,744
Number of Units outstanding	22,310
Management fee	2.00%
Management expense ratio ("MER") ⁽³⁾	11.37%*
MER before waivers or absorptions ⁽³⁾	11.37%*
Trading expense ratio ("TER") ⁽⁴⁾	0.08%*
Portfolio turnover rate ⁽⁵⁾	38.53%
Net Asset value per Unit ⁽⁶⁾	\$929.81

* Annualized, except for issuance costs included in the MER which are treated as one-time expenses.

- (1) This information is derived from the Partnership's interim financial statements. Net assets per Unit presented in the interim financial statements may differ from net asset value calculated for pricing purposes. An explanation of these differences, if any, can be found in the notes to the interim financial statements, if applicable. Some of the \$nil balances reported in the Financial Highlights may include amounts that are rounded to zero.
- (2) Net assets per Unit are based on the actual number of Units outstanding at the relevant time. The increase in net assets from operations per Unit is based on the weighted average number of Units outstanding over the period.
- (3) The management expense ratio ("MER") is based on the total expenses (excluding commissions and other portfolio transaction costs) of the Partnership for the stated period expressed as an annualized percentage of daily average net asset value during the period. The June 30, 2016 MER is an annualized MER, which is calculated in accordance with regulatory requirements. The ratio is subject to change due to fluctuations in the average net asset value, and in the expenses charged to the Partnership over the remainder of the fiscal year, and may differ significantly from the final MER for the year ending December 31, 2016. The following MER statistics are presented for information purposes.

	June 30, 2016
MER excluding issuance costs	2.99%
MER excluding issuance costs and sales tax	2.66%

- (4) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs of the Partnership expressed as an annualized percentage of daily average net asset value of the Partnership during the period.
- (5) The Partnership's portfolio turnover rate indicates how actively the portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to an investment fund buying and selling all of the securities in its portfolio once in the course of the fiscal period. The higher the portfolio turnover rate in a period, the greater the trading costs payable by an investment fund in the period and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of an

CMP 2016 Resource Limited Partnership

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

investment fund. The portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period by the average market value of investments during the period.

- (6) National Instrument 81-106 – “Investment Fund Continuous Disclosure” (“NI 81-106”) requires all investment funds to calculate net asset value for all purposes other than for financial statements in accordance with part 14.2, which differs in some respects from the requirements of IFRS. IFRS Net Assets includes Black-Scholes adjustments to the value of warrants held, whereas the Transactional NAV does not require such adjustments. A reconciliation between Transactional NAV and IFRS Net Assets is provided below.

As at June 30, 2016	Total (\$000's)	Per Unit (\$)
Transactional NAV	20,744	929.81
Valuation adjustment	156	6.99
IFRS Net Assets	20,900	936.80

Management Fee

The Partnership pays a management fee to its Manager for the sole provision of portfolio advisory services. The management fee is calculated at an annualized rate of 2% of the Transactional NAV of the Partnership and is accrued daily and paid monthly.

Caution Regarding Forward-Looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Partnership, as applicable, including statements with respect to strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects and possible future Partnership action is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, current assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Partnership. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above mentioned list of important factors is not exhaustive.

We encourage readers to consider these and other factors carefully before making any investment decisions and we urge readers to avoid placing any undue reliance on forward-looking statements. Further, readers should be aware of the fact that the Partnership has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next management report of fund performance.

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited)

1. The Partnership

a) Organization of the Limited Partnership

CMP 2016 Resource Limited Partnership (the “Partnership”) was formed as a limited partnership under the laws of the Province of Ontario. The Partnership aims to provide for a tax-assisted investment in a diversified portfolio of flow-through shares and other securities, if any, of resource companies with a view to earning income and achieving capital appreciation for limited partners. The Partnership was formed on January 26, 2016, and Partnership units (the “Units”) were issued on February 19, 2016. The principal office of the Partnership is located at 1 Adelaide Street East, Suite 2100, Toronto, Ontario, M5C 2V9.

Goodman GP Ltd. (the “General Partner”) is the General Partner of the Partnership. The General Partner is responsible for the management of the Partnership in accordance with the terms and conditions of the partnership agreement. These interim financial statements were approved for issue by the General Partner on August 25, 2016.

b) Manager

The Partnership has retained Goodman & Company, Investment Counsel Inc. (“GCICI” or the “Manager”) as the investment fund manager of the Partnership. The Manager is responsible for providing investment, management, administrative and other services to the Partnership. The Manager is a wholly owned subsidiary of Dundee Corporation, a public Canadian independent holding company listed on the Toronto Stock Exchange under the symbol “DC.A”.

c) Financial Reporting Dates

The interim Statement of Financial Position is as at June 30, 2016. The interim Statement of Comprehensive Income, Changes in Net Assets Representing Partners’ Equity, and Cash Flows are for the period from commencement of operations on February 19, 2016 to June 30, 2016. Throughout this document, reference to the period refers to the reporting period described here.

These interim financial statements present the financial position and results of operations of the Partnership and as such, do not include all assets, liabilities, revenues or expenses of the partners.

2. Basis of Presentation

These interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34 – *Interim Financial Reporting*.

3. Summary of Significant Accounting Policies

a) Fair Value Measurement

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices. In accordance with the provisions of the Partnership’s prospectus, investment positions are valued based on the last traded market price for the purpose of determining the transactional net asset value (“Transactional NAV”) per Unit. For financial reporting purposes, the Partnership uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day’s bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value.

b) Financial Instruments

The Partnership recognizes financial instruments at fair value upon initial recognition, plus transaction costs in cases pertaining to financial instruments measured at amortized cost. The Partnership’s investments are classified as financial instruments carried at fair value through profit or loss (“FVTPL”). Some of the Partnership’s investments have been classified as financial instruments at FVTPL as they meet the criteria for designation as held-for-trading (“HFT”) securities. The Partnership has elected to designate other investments that do not meet the HFT criteria as financial assets at FVTPL (“Designated FVTPL”).

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited) (cont'd)

c) Flow-Through Shares

The Partnership invests in flow-through shares. The purchase price of such shares inherently includes the purchase of the flow-through tax deduction. The portion of the purchase price for flow-through shares which the Partnership incurred to acquire the flow-through tax deductions are included in equity. The value of the flow-through deduction is considered to be the difference between the purchase price of flow-through shares and the fair value of such shares trading without flow-through deductions and is reflected in the interim Statement of Changes in Net Assets Representing Partners' Equity as "Premium paid on acquisition of flow-through shares".

d) Other Assets and Liabilities

"Cash" is a financial instrument designated as loans and receivables and is recorded at amortized cost. Similarly, "Loan payable", "Management fee payable", "Interest expense payable", "Accrued expenses", and "Issuance costs payable" are financial instruments designated as other financial liabilities and are recorded at amortized cost. Amortized cost approximates fair value for these assets and liabilities, as they are short term in nature.

Under the amortized cost method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's effective interest rate.

e) Investment Transactions

Investment transactions are recorded on a trade date basis. The cost of investments represents the amount paid for each security, excluding transaction costs.

f) Transaction Costs

Transaction costs are incremental costs directly attributable to the acquisition, issuance or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges and transfer taxes and duties. Transaction costs related to financial instruments measured at FVTPL are expensed as incurred.

g) Income Recognition/Derecognition

The Partnership recognizes financial assets or liabilities designated at FVTPL on the trade date, which is the date it commits to purchase the instruments. From this date, any gains and losses arising from changes in fair value of the assets or liabilities are recognized in the interim Statement of Comprehensive Income.

Financial assets are derecognized when the contractual rights to the cash flows from the asset expire or the financial asset and substantially all the risks and rewards of ownership of the asset have been transferred to another entity. The Partnership derecognizes financial liabilities when the Partnership's obligations are discharged, cancelled or expired.

Interest income is accrued as earned and dividend income is recognized on the ex-dividend date.

h) Translation of Foreign Currency

The presentation currency for the Partnership is the Canadian dollar which is also its functional currency. Any currency other than the Canadian dollar represents foreign currency to the Partnership.

The fair value of investments and other assets and liabilities denominated in a foreign currency are translated into Canadian dollars at the rate of exchange which is current on the valuation date. Transactions denominated in a foreign currency are translated into Canadian dollars at the rate of exchange prevailing on the date of the transactions. Unrealized foreign currency gains or losses on investments are included in the interim Statement of Comprehensive Income in "Net change in unrealized appreciation in value of investments".

i) Increase in Net Assets from Operations per Unit

The "Increase in Net Assets from Operations per Unit" is disclosed in the interim Statement of Comprehensive Income and represents the increase in net assets from operations for the period divided by the weighted average number of Units outstanding during the period. Refer to Note 9 for the calculation of the Increase in Net Assets from Operations per Unit.

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited) (cont'd)

j) **Allocation of Partnership Income and Loss**

100% of any Canadian Exploration Expense (“CEE”) renounced to the Partnership with an effective date in such fiscal year and 99.99% of the net income or net loss of the Partnership for the fiscal year is allocated to limited partners at the end of the fiscal year in proportion to the number of limited partnership Units owned. The Partnership is not itself a taxable entity. Accordingly, no provision for income tax is required. The General Partner is entitled to 0.01% of the net income or net loss of the Partnership.

k) **Non-zero Amounts**

Some of the balances reported in the interim financial statements may include amounts that are rounded to zero.

l) **Accounting Standards Issued but Not Yet Adopted**

The final version of IFRS 9 - *Financial Instruments* (“IFRS 9”), was issued by the International Accounting Standards Board in July 2014 and will replace IAS 39 - *Financial Instruments: Recognition and Measurement* (“IAS 39”). IFRS 9 introduces a model for classification and measurement, a single, forward-looking expected loss impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of an entity’s own credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognized in profit or loss. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Partnership has yet to assess the full impact of IFRS 9 to its financial statements, and it has not yet determined whether it will be adopted earlier than the required date of implementation.

4. **Critical Accounting Estimates and Judgments**

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Manager has made in preparing the interim financial statements.

a) **Classification and Measurement of Investments and Application of the Fair Value Option**

Significant judgment is applied by the Partnership in determining whether financial instruments that do not meet the HFT criteria may be classified as Designated FVTPL. In determining whether a financial instrument may be classified as Designated FVTPL, the Partnership must assess whether the financial instrument is part of a group of financial instruments that is managed and its performance evaluated on a fair value basis in accordance with a specified investment strategy.

b) **Fair Value Measurement of Securities Not Quoted in an Active Market**

Key areas of estimation, where the Manager has made complex or subjective judgments, include the determination of fair values of financial instruments that are not quoted in an active market. The fair value of financial assets and liabilities that are not quoted in an active market is determined using valuation techniques. The use of valuation techniques for financial instruments that are not quoted in an active market requires the Manager to make assumptions that are based on market conditions existing as at the date of the interim financial statements. Changes in these assumptions as a result of changes in market conditions could affect the reported fair value of financial instruments. Valuation techniques used include the application of liquidity discounts to quoted market prices when valuing listed equities that are subject to sale restrictions.

5. **Borrowing**

The Partnership established credit facilities with a Canadian chartered bank (the “Bank”) up to an amount not exceeding 7.75% of the gross proceeds raised at commencement of operations. The loan proceeds were used for the payment of issuance costs and the Partnership provided the Bank with a security interest in all of the assets of the Partnership. The maximum and minimum amounts borrowed during the period ended June 30, 2016 were approximately \$1,285,000 and \$948,000, respectively. The average annual interest rate on the outstanding balances during the period ended June 30, 2016 was 2.52%.

As at June 30, 2016, bank borrowings were approximately \$1,285,000, and represented approximately 6.2% of net assets. For the period ended June 30, 2016, the Partnership incurred interest expense of approximately \$12,000.

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited) (cont'd)

6. Expenses and Related Party Transactions

a) Management Fee

The Partnership pays the Manager a management fee for the continuous advice, recommendations and services, including key management personnel, provided to the Partnership. This includes acting as the manager, portfolio advisor and principal distributor to the Partnership. The Manager is also responsible for the Partnership's day-to-day operations.

The management fee is an annualized rate of 2% plus taxes based on the Transactional NAV of the Partnership and is accrued daily and paid monthly as a percentage of the month end Transactional NAV, in accordance with the terms of the management agreement for the Partnership.

In consideration for portfolio advisory services received from the Manager, the Partnership incurred a management fee, inclusive of sales tax, of approximately \$165,000 for the period ended June 30, 2016.

b) Performance Bonus

The Manager is entitled to a performance bonus to be paid by the Partnership equal to 20% of the amount by which the net asset value per Unit exceeds \$1,120 on the performance bonus date. The performance bonus is calculated on a per Unit basis and multiplied by the number of Units existing as at the performance bonus date. The performance bonus date is on the earlier of (i) the date on which the Partnership assets are transferred pursuant to a mutual fund rollover transaction; (ii) the day a liquidity alternative is completed; and (iii) the day immediately prior to the date the assets of the Partnership are distributed in connection with the dissolution or winding up of the affairs of the Partnership. The performance bonus will be calculated on the performance bonus date and paid as soon as practicable thereafter. As at June 30, 2016, no performance bonus was paid or payable to the Manager.

c) Operating Expenses and Administrative Services

The Partnership is responsible for its operating expenses relating to the carrying on of its business, including custodial services, legal, independent review committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are accrued daily. The Manager pays for such expenses on behalf of the Partnership, except for certain expenses such as interest, and is subsequently reimbursed by the Partnership. As at June 30, 2016, the Partnership owed the Manager approximately \$38,000 for expenses paid on the Partnership's behalf.

In addition, the Partnership incurred expenses paid or payable to the Manager, or to companies affiliated with the Manager, of approximately \$52,000 for administrative services performed by the Manager during the period.

d) Brokerage Commissions

Brokerage commissions of approximately \$8,000 were paid on securities transactions during the period. Soft dollar commissions, if any, represent amounts paid indirectly to third parties through a broker or dealer for services received by the Partnership that do not pertain to trading execution. There were no soft dollar commissions paid by the Partnership during the period.

e) Private Placements

The Partnership invests in flow-through shares through registered dealers, which may also include Dundee Securities Ltd. ("DSL"). Commissions or finder's fees on flow-through shares are paid directly from the issuer of the shares to the broker/dealer. In certain circumstances, DSL and the other agents may be entitled to receive fees and, in some cases, rights to purchase shares in connection with the sale of flow-through shares to the Partnership.

f) Standing Instructions from the Independent Review Committee

Pursuant to National Instrument 81-107 – "*Independent Review Committee for Investment Funds*", the Manager has appointed an independent review committee ("IRC") to oversee the Partnership. Costs and expenses directly associated with the operations of the IRC, including remuneration of IRC members, are chargeable to the Partnership. As at June 30, 2016, the IRC consisted of three members, all of whom are independent of the Manager. The Partnership paid approximately \$3,000 for IRC fees for the period ended June 30, 2016. These costs are included in "Unitholder reporting costs" on the interim Statement of Comprehensive Income.

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited) (cont'd)

7. Partners' Equity

Partners' equity represents the net assets of the Partnership and is comprised of issued Units and accumulated surplus. The Partnership is not subject to any regulatory requirements on capital. The capital of the Partnership is managed in accordance with the Partnership's investment objectives, policies and restrictions, as outlined in the Partnership's prospectus. The Units were issued at a price of \$1,000 per Unit, subject to a minimum subscription of five Units for \$5,000. Prior to July 1, 2017, the Partnership intends to transfer its assets to a mutual fund in exchange for redeemable shares of said mutual fund.

Pursuant to the terms of the transfer agreement and the partnership agreement, upon completion of the mutual fund rollover transaction and the dissolution of the Partnership, limited partners would receive their pro rata share of said mutual fund shares on a tax-deferred basis.

All Units are of the same class with equal rights and privileges, including equal participation in any distribution made by the Partnership and the right to one vote at any meeting of the limited partners. Under IAS 32 – *Financial Instruments: Presentation*, financial instruments that include a contractual obligation for the issuing entity to deliver a pro rata share of its net assets only on liquidation shall be classified as equity provided they contain certain features. Since the Units of the Partnership contain said features, they are classified as equity.

Summaries of the outstanding Units are outlined in the following table.

Number of Outstanding Units	June 30, 2016
Beginning of period	–
Subscriptions	22,310
End of period	22,310

8. Comparison of IFRS Net Assets per Unit and Transactional NAV per Unit

The table below provides a comparison of Net Assets per Unit under IFRS and Transactional NAV per Unit. IFRS Net Assets includes Black-Scholes adjustments to the value of warrants held, whereas the Transactional NAV does not require such adjustments.

	June 30, 2016
Transactional NAV per Unit	\$929.81
IFRS Net Assets per Unit	\$936.80

9. Increase in Net Assets from Operations per Unit

The increase in net assets from operations per Unit for the period ended June 30, 2016 is calculated as follows:

	June 30, 2016
Increase in net assets from operations (\$000's)	\$1,572
Weighted average of Units outstanding during the period	20,854
Increase in net assets from operations per Unit	\$75.37

10. Risks Associated with Financial Instruments

The investment activities of the Partnership expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, currency risk and other price risk) and concentration risk. The Manager seeks to minimize potential adverse effects of these risks on the Partnership's performance by employing and overseeing professional and experienced portfolio advisors that regularly monitor the Partnership's optimal asset mix and market events, as well as diversify the investment portfolio within the constraints of the Partnership's investment objective.

To assist in managing risks, the Manager has established and maintains a governance structure that oversees the Partnership's investment activities and monitors compliance with the Partnership's stated investment objectives and guidelines. Significant risks that are relevant to the Partnership are discussed below.

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the counterparty by failing to discharge an obligation. The Partnership may become exposed to credit risk from the purchase of debt instruments, engaging in securities transactions (including warrants) or through the use of custody, loan and/or bank accounts, as applicable.

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited) (cont'd)

The Partnership had no significant exposure to debt instruments as at June 30, 2016.

All investment transactions are settled on delivery, minimizing the risk of default on investment transactions. Delivery of securities on a sale is only made once the custodian has received payment and, conversely, payment is only made on a purchase once the securities have been delivered to the custodian. The trade will fail if either party fails to meet its obligations. When the Partnership trades in listed or unlisted securities through a broker, the Partnership only transacts with reputable brokers that are duly registered with applicable securities regulators. In addition, custody transactions are carried out by counterparties that have a Standard & Poor's credit rating of "A" or higher. As such, credit risk tied to securities transactions is considered minimal.

The Partnership only deposits assets with reputable companies that are eligible to act as a custodian under the provisions of National Instrument 81-102 – "Investment Funds". However, in the event of bankruptcy or insolvency of such companies, the securities or other assets deposited therewith may be exposed to credit risk, or access to those securities or other assets may be delayed or limited.

Liquidity Risk

Liquidity risk is the risk that the Partnership may not be able to settle or meet its obligations on time or at a reasonable price. In order to maintain sufficient liquidity, the Partnership typically invests its assets in securities that are traded in an active market and can be readily disposed. The Partnership also invests in securities that are not traded in an active market and may be illiquid. Such investments are identified as restricted securities in the Schedule of Investment Portfolio. In addition, the Partnership aims to retain sufficient cash positions to maintain liquidity.

The financial liabilities disclosed in the interim Statement of Financial Position are all current liabilities, and are therefore normally paid within the fiscal year.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of the Partnership's financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Exposure to interest rate risk is mainly tied to the amount borrowed under the Partnership's credit facility. The following table summarizes the Partnership's exposure to interest rate risk as at June 30, 2016.

	June 30, 2016 (\$000's)
Loan Payable (Note 5)	\$1,285
Total	\$1,285

If prevailing interest rates had been raised or lowered by 1%, with all other variables held constant, net assets would have decreased or increased, respectively, by approximately \$13,000.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. Exposure to currency risk is mainly in financial instruments (including cash) that are denominated in a currency other than Canadian dollars, which is the functional currency of the Partnership. The Partnership had no significant exposure to currency risk as at June 30, 2016.

Other Price Risk

Other price risk is the risk that the fair value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) caused by factors specific to a security, its issuer or all factors affecting a market or a market segment. Exposure to other price risk is mainly in equities. As at June 30, 2016, approximately \$10,182,000 of the Partnership's net assets were exposed to other price risk. If prices of these investments had decreased or increased by 5%, before considering changes to management and performance fees, net assets of the Partnership would have decreased or increased, respectively, by approximately \$509,000.

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited) (cont'd)

Concentration Risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, or industry sector. The following is a summary of the Partnership's concentration risk.

As a Percentage of Net Assets (%)	June 30, 2016
EQUITIES	48.7
Energy	32.9
Diversified Metals and Mining	8.2
Gold and Precious Metals	7.6

11. Fair Value Hierarchy

The Partnership classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 1 financial instruments include actively listed equities and other publicly quoted investments. The Manager does not adjust the quoted price for these instruments.

Level 2 – Inputs to the valuation methodology include inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument, including quoted prices for similar assets and liabilities in active markets. Level 2 financial instruments include those that trade in markets that are not considered to be active but are valued based on quoted market prices or dealer quotations supported by observable inputs. These include certain listed equities that are subject to sale restrictions, whose valuations may be adjusted to reflect illiquidity.

Level 3 – Inputs to the valuation methodology are based on unobservable market data. Level 3 financial instruments are those that have at least one significant unobservable input, as they are not based on quoted market prices. Level 3 instruments include private equity and private debt securities. As observable prices are not available for these securities, the Manager has used valuation techniques to derive fair value. Level 3 valuations are reviewed on a quarterly basis by the Partnership's valuation committee, which evaluates the model inputs as well as the valuation results prior to making any fair value determinations regarding the Partnership's Level 3 financial instruments.

The following table summarizes the fair value hierarchy of the Partnership's financial instruments as at June 30, 2016.

June 30, 2016				
(\$000's)	Level 1	Level 2	Level 3	Total
Equities	\$-	\$10,027	\$-	\$10,027
Warrants	-	155	-	155
Total Financial Instruments	\$-	\$10,182	\$-	\$10,182

Financial Instruments by Category

The following table presents the carrying amounts of the Partnership's financial assets by category. All of the Partnership's financial liabilities were carried at amortized cost.

June 30, 2016				
Financial Assets (\$000's)	Designated FVTPL	HFT	Loans and Receivables	Total
Investments, at fair value	\$10,027	\$155	\$-	\$10,182
Cash	-	-	12,129	12,129
Total	\$10,027	\$155	\$12,129	\$22,311

CMP 2016 Resource Limited Partnership

NOTES TO THE INTERIM FINANCIAL STATEMENTS (unaudited) (cont'd)

The following table presents the net gain on financial instruments at FVTPL by category for the period ended June 30, 2016.

Financial assets at FVTPL (\$000's)	June 30, 2016
HFT	\$155
Designated FVTPL	1,709
Total	\$1,864
