CMP 2020 RESOURCE
LIMITED PARTNERSHIP

SEMI - ANNUAL REPORT

JUNE 30, 2020

The semi-annual management report of fund performance contains financial highlights, but does not contain the complete semi-annual or annual financial statements of the Partnership. For your reference, the semi-annual financial statements of the Partnership are attached to the semi-annual management report of fund performance. You may obtain additional copies of these documents or a copy of the annual financial statements at your request, and at no cost, by calling toll free 866.694.5672, by visiting our website at www.goodmanandcompany.com or SEDAR at www.sedar.com or by writing to us at: Goodman & Company, Investment Counsel Inc., 1 Adelaide Street East, Suite 2000, Toronto, Ontario, M5C 2V9.

Securityholders may also contact us using one of these methods to request a copy of the Partnership's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

CMP 2020 Resource Limited Partnership

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim financial statements have been prepared by Goodman & Company, Investment Counsel Inc. ("GCICI"), in its capacity as manager of CMP 2020 Resource Limited Partnership (the "Partnership"), and have been approved by the Board of Directors of Goodman GP Ltd., in Goodman GP Ltd.'s capacity as general partner (the "General Partner") of the Partnership. The General Partner is responsible for the information and representations contained in these unaudited interim financial statements and the interim management report of fund performance.

GCICI maintains appropriate processes to provide reasonable assurance that relevant and reliable financial information is produced. The unaudited interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and include certain amounts that are based on estimates and judgments made by GCICI. The significant accounting policies which GCICI believes are appropriate for the Partnership are described in Note 3 to these unaudited interim financial statements.

PricewaterhouseCoopers LLP, Chartered Professional Accountants, is the external auditor of the Partnership, appointed by the General Partner.

(signed)

ROBERT SELLARS
Chief Financial Officer
Goodman GP Ltd.

August 20, 2020

Investment Objective and Strategies

CMP 2020 Resource Limited Partnership (the "Partnership") aims to provide for a tax-assisted investment in a diversified portfolio of flow-through shares and other securities, if any, of resource companies with a view to earning income and achieving capital appreciation for limited partners.

The investment strategy of the Partnership entails initially investing primarily in flow-through shares of resource companies that: a) have experienced management; b) have a strong exploration program in place; c) may require time to mature; and d) offer the potential for future growth. The Partnership intends to invest such that limited partners with sufficient income will be entitled to claim certain investment tax credits, as well as deductions for Canadian federal income tax purposes in respect of Canadian exploration expenses incurred and renounced to the Partnership. For tax purposes, any sale of flow-through shares generally is expected to result in a capital gain equal to the net proceeds as the cost of the flow-through shares is deemed to be $nil.

Risks

Further to the discussion around the potential risks posed by the COVID-19 pandemic below, the risks associated with investing in the Partnership are as described in the prospectus.

The current outbreak of COVID-19 has had an adverse impact on global economic conditions. This crisis may continue or worsen which may adversely impact the investments of the Partnership, specifically the operations of the investee companies in addition to those of their suppliers, contractors and service providers. The pandemic may impact their ability to obtain financing and maintain adequate liquidity, the demand for and ability to transport their products as well as their ability to advance their projects and other growth initiatives. The outbreak of COVID-19 and the resulting global upheavals have caused significant volatility in commodity prices. The global pandemic has caused companies and governments around the world to impose sweeping restrictions on the movement of people and goods, including social distancing measures, restrictions on group gatherings, isolation and quarantine requirements, closure of business and government offices, travel advisories and travel restrictions. Relevant jurisdictional authorities may introduce new, or modify existing, laws, regulations, orders or other measures that could impact the mining companies' ability to operate or affect the actions of their suppliers, contractors and service providers. While some restrictions have been lifted, should restrictions be re-imposed and/or additional measures be implemented, this may prolong the economic downturn, which may adversely impact the Partnership's investments and results of operations. The Manager will continue to work actively to monitor the situation and implement further measures as required to mitigate and/or deal with any repercussions that may occur as a result of the COVID-19 outbreak.

Results of Operations[1]

For the period from commencement of operations on February 20, 2020 to June 30, 2020[2], the units of the Partnership (the "Units") generated a total return of approximately negative 11.7% on a net asset value basis. Over the same period, the S&P/TSX Composite Index returned approximately negative 12.2%. Unlike the returns of this index, the Partnership's returns are reported net of all management fees and expenses. As such, the Partnership's performance is not expected to equal the performance of this index. It may be more helpful for investors to compare the Partnership's performance to that of other closed-end funds with similar objectives and investment disciplines. Readers are also cautioned that the Partnership's investment mandate is significantly different from the index shown. The S&P/TSX Composite Index encompasses approximately 95% of the market capitalization for Canadian-based, Toronto Stock Exchange listed companies.

The gold price appreciated above our expectation during the first half of 2020, which drove gold company valuations higher. Investor uncertainty around the global economic conditions caused by COVID-19 pandemic led to a material increase in the price of gold of over US$250 per ounce during the period, lifting the spot price of the precious metal to nearly $1,800 per ounce. Copper, as in prior periods, continued to exhibit volatility with the metal dropping to nearly US$2.00 per pound during the period before ending the period slightly lower than it where began. Continued market fears over lower global economic growth, fueled by trade frictions between global superpowers, contributed to the volatility and continued weakness in the

1 All references to net assets or net asset value in this section refer to Transactional NAV as defined in the Financial Highlights section, which may differ from IFRS Net Assets.

2 Unless otherwise indicated, references to the period refer to the period from commencement of operations on February 20, 2020 to June 30, 2020 throughout this document.

commodity.

The S&P/TSX Gold Index ended the period up 32.2%. The price of gold and gold stocks experienced significant losses in March, consistent with the global sell-off in equity capital markets as a result of the initial fall-out from the COVID-19 pandemic. This was followed by a significant rebound in equity markets, including gold stocks, during the second quarter. The recent volatility in global equity markets combined with the uncertain economic conditions has resulted in a renewed interest in gold and gold companies, with market gains accruing to companies that have demonstrated precious metal exploration success.

The base metals stocks experienced significant volatility during the period. The S&P/TSX Global Base Metals Index fell approximately 15.9% during the period. Continued fears of slowing global growth stemming from the current COVID-19 pandemic resulted in base metal stocks exhibiting a high degree of volatility during the period.

As of the end of the period, the Partnership has invested approximately 31% of its available funds. Subsequent to the period end, at the time of writing, the Partnership has invested approximately 60% of its available funds. Although it is too early to judge the top performing names in the Partnership, the companies with strong management teams and promising assets located in jurisdictions with mining infrastructure have performed the best. This is evidenced by Galleon Gold Corp. whose management has acquired an advanced stage gold project in Timmins with open pit and underground potential. The investments that have underperformed to date, namely Sabina Gold & Silver Corp and Clean Air Metals, have not released negative news, and our investment thesis for these investments remains largely unchanged.

The following table highlights changes in both transactional net asset value (“Transactional NAV”) and net assets determined using International Financial Reporting Standards (“IFRS Net Assets”) during the period. Refer to the financial highlights section for further information on the differences between Transactional NAV and IFRS Net Assets.

Net Asset Value Comparison ($CAD, in millions)

	Transactional NAV	IFRS Net Assets
Gross proceeds, initial public offering	$16.7	$16.7
Issuance costs	(1.3)	(1.3)
Investment performance	(0.4)	0.3
Net fees and expenses[(a)]	(0.3)	(0.3)
Balance, June 30, 2020	$14.7	$15.4

(a) Net of interest and dividend income. Transaction costs are expensed in calculating IFRS Net Assets.

Related Party Transactions

The following arrangements may result in fees paid by the Partnership to Goodman & Company, Investment Counsel Inc. (“GCICI” or the “Manager”) or to companies affiliated with the Partnership.

Management Fees

The Partnership pays the Manager a management fee for the continuous advice, recommendations and services, including key management personnel, provided to the Partnership. This includes acting as the manager, portfolio advisor and principal distributor to the Partnership. The Manager is also responsible for the Partnership’s day-to-day operations.

The management fee is an annualized rate of 2.00% plus taxes based on the Transactional NAV of the Partnership and is accrued daily and paid monthly as a percentage of the month end Transactional NAV, in accordance with the terms of the management agreement for the Partnership.

In consideration for portfolio advisory services received from the Manager, the Partnership incurred a management fee, inclusive of sales tax, of approximately $123,000 for the period ended June 30, 2020.

Performance Bonus

The Manager is entitled to a performance bonus to be paid by the Partnership equal to 20% of the amount by which the net asset value per Unit exceeds $1,120 on the performance bonus date. The performance bonus is calculated on a per Unit basis and multiplied by the number of Units existing at the performance bonus date. The performance bonus date is on the earlier of (i) the date on which the Partnership assets are transferred pursuant to a mutual fund rollover transaction; (ii) the day a liquidity alternative is completed; and (iii) the day immediately prior to the date the assets of the Partnership are distributed in connection with the dissolution or winding up of the affairs of the Partnership. The performance bonus will be calculated on the performance bonus date and paid as soon as practicable thereafter. As at June 30, 2020, no performance bonus was payable to the Manager.

Operating Expenses and Administrative Services
The Partnership is responsible for operating expenses relating to the carrying on of its business, including custodial services, legal, independent review committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are calculated and accrued daily. The Manager pays for such expenses on behalf of the Partnership, except for certain expenses such as interest, and is subsequently reimbursed by the Partnership. As at June 30, 2020, the Partnership owed the Manager approximately $36,000 for expenses paid on the Partnership's behalf. This balance is included in the interim Statement of Financial Position under "Accrued expenses".

In addition, the Partnership incurred expenses paid or payable to the Manager, or to companies affiliated with the Manager, of approximately $41,000 for administrative services, overhead in nature, performed by the Manager during the period. This cost is included in "Unitholder administration costs" on the interim Statement of Comprehensive Income.

Transactions in Securities of a Related Issuer
The Partnership may purchase or sell securities of an issuer that is related to the Partnership, GCICI or an entity related to GCICI under prescribed conditions. For these transactions, the Manager received approval from the IRC (see "Standing Instructions from the Independent Review Committee" below). During the period, the Partnership did not enter any transactions involving a related issuer.

Inter-Fund Trades
The Partnership may, from time to time, enter into security trades with other investment funds managed by the Manager. These trades will be executed through market intermediaries and under prevailing market terms and conditions. Any such trades will be executed in accordance with applicable securities laws, the Manager's policies and procedures and with the approval of the IRC (see "*Standing Instructions from the Independent Review Committee"* below*)*. During the period, the Partnership did not enter into any security trades with other investment funds managed by the Manager.

Participation in Related Offerings
The Partnership may participate in securities offerings where Dundee Goodman Merchant Partners ("DGMP"), a division of GCICI, acted as an exempt market dealer and received a finder's fee and/or commissions from the issuer for facilitating the transaction. For these transactions, the Manager has received approval from the IRC (see "*Standing Instructions from the Independent Review Committee*" below). During the period, the Partnership participated in a security transaction with a settlement value of approximately $1,000,000 where DGMP, earned total finder's fees and/or commissions of approximately $60,000 and 260,870 broker warrants.

Standing Instructions from the Independent Review Committee
Pursuant to National Instrument 81-107 – "Independent Review Committee for Investment Funds", the Manager has appointed an independent review committee ("IRC") to oversee the Partnership. Costs and expenses directly associated with the operations of the IRC, including remuneration of IRC members, are chargeable to the Partnership. As at June 30, 2020, the IRC consisted of three members, all of whom are independent of the Manager. The Partnership paid approximately $3,500 for IRC fees for the period ended June 30, 2020. These costs are included in "Unitholder administration costs" on the interim Statement of Comprehensive Income.

The Partnership received the following standing instructions with respect to related party transactions from the IRC:

(i) purchases or sales of securities of an issuer related to the Partnership, GCICI or an entity related to GCICI;

(ii) purchases or sales of securities of an issuer from or to another investment fund managed by the Manager; and

(iii) participation in any offering where DGMP acts as an exempt market dealer and receives a finder's fee and/or commissions from an Issuer.

The applicable standing instructions require the Manager to establish policies and procedures that it will follow with respect to related party transactions. The Manager is required to advise the IRC of any material breach of a condition of the standing instructions.

The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager, free from any influence by any related entity and without taking into account any consideration to the Manager or any associate or affiliate of the Manager; (b) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Partnership; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager, under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Partnership relied on IRC standing instructions regarding related party transactions during the period.

Financial Highlights

The following tables show selected key financial information about the Partnership and are intended to help readers understand the Partnership's financial performance for the period indicated. The information on the following tables is based on prescribed regulations. As a result, subtotals are not expected to equal aggregate totals due to the increase in net assets from operations being based on the weighted average number of Units outstanding during the period and all other numbers being based on actual number of Units outstanding at the relevant point in time.

***The Partnership's Net Assets per Unit* (1)** **(Partnership commencement of operations February 20, 2020)**

	June 30, 2020
Initial offering price	$1,000.00
Issuance costs	(77.50)
Net assets, beginning of period (1) (2)	**$922.50**
Increase in net assets from operations:	
Total revenue	$0.80
Total expenses	(16.23)
Change in unrealized gain for the period	53.72
Total increase in net assets from operations (2)	**$38.29**
Premium paid on acquisition of flow-through shares	**$(38.07)**
Net assets, end of period (1) (2) (6)	**$922.72**

Ratios and Supplemental Data	
Total net asset value (in 000's) (6)	$14,731
Number of Units outstanding	16,675
Management fee	2.00%
Management expense ratio ("MER") (3)	12.47%*
MER before waivers or absorptions (3)	12.47%*
Trading expense ratio ("TER") (4)	-%*
Portfolio turnover rate (5)	-%
Net Asset value per Unit (6)	**$883.43**

* Annualized, except for issuance costs included in the MER which are treated as one-time expenses.

(1) This information is derived from the Partnership's unaudited interim financial statements. Net assets per Unit presented in the unaudited interim financial statements may differ from net asset value calculated for pricing purposes. An explanation of these differences, if any, can be found in the notes to the unaudited interim financial statements, if applicable. Some of the $nil balances reported in the Financial Highlights may include amounts that are rounded to zero.

(2) Net assets per Unit are based on the actual number of Units outstanding at the relevant time. The increase in net assets from operations per Unit is based on the weighted average number of Units outstanding over the period.

(3) The management expense ratio ("MER") is based on the total expenses (excluding commissions and other portfolio transaction costs) of the Partnership for the stated period expressed as an annualized percentage of daily average net asset value during the period. The June 30, 2020 MER is an annualized MER, which is calculated in accordance with regulatory requirements. The following MER statistics are presented for information purposes.

	June 30, 2020
MER excluding issuance costs	3.57%
MER excluding issuance costs and sales tax	3.16%

(4) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs of the Partnership expressed as an annualized percentage of daily average net asset value of the Partnership during the period.

(5) The Partnership's portfolio turnover rate indicates how actively the portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to an investment fund buying and selling all of the securities in its portfolio once in the course of the fiscal period. The higher the portfolio turnover rate in a period, the greater the trading costs payable by an investment fund in the period and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of an investment fund. The portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period by the average market value of investments during the period.

(6) National Instrument 81-106 – "Investment Fund Continuous Disclosure" ("NI 81-106") requires all investment funds to calculate net asset value for all purposes other than for financial statements in accordance with part 14.2, which differs in some respects from the requirements of IFRS. In accordance with IFRS, the fair value of warrants is determined using Black-Scholes, whereas for the Transactional NAV, the warrants are valued intrinsically. A reconciliation between Transactional NAV and IFRS Net Assets is provided below.

As at June 30, 2020	Total in $000's	Per Unit ($)
Transactional NAV	14,731	883.43
Valuation adjustment	655	39.29
IFRS Net Assets	**15,386**	**922.72**

^ The ‘‘Energy (Other)’’ component of the portfolio consists of companies whose primary focus is on the exploration, development and production of alternative energy sources (outside of oil and natural gas), including uranium, wind generation, geothermal and energy storage.

Caution Regarding Forward-Looking Statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Partnership, as applicable, including statements with respect to strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects and possible future Partnership action is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, current assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Partnership. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above-mentioned list of important factors is not exhaustive.

We encourage readers to consider these and other factors carefully before making any investment decisions, and we urge readers to avoid placing any undue reliance on forward-looking statements. Further, readers should be aware of the fact that the Partnership has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next management report of fund performance.

†Where applicable, distributions received from holdings as a return of capital are used to reduce the adjusted cost base of the securities in the portfolio.

* These securities have no quoted market values and are valued using valuation techniques.

1. The Partnership

a) Organization of the Limited Partnership

CMP 2020 Resource Limited Partnership (the "Partnership") was formed as a limited partnership under the laws of the Province of Ontario. The Partnership aims to provide for a tax-assisted investment in a diversified portfolio of flow-through shares and other securities, if any, of resource companies with a view to earning income and achieving capital appreciation for limited partners. The Partnership was formed on November 1, 2019, and Partnership units (the "Units") were issued on February 20, 2020. The principal office of the Partnership is located at 1 Adelaide Street East, Suite 2000, Toronto, Ontario, M5C 2V9.

Goodman GP Ltd. (the "General Partner") is the General Partner of the Partnership. The General Partner is responsible for the management of the Partnership in accordance with the terms and conditions of the partnership agreement. These unaudited interim financial statements were approved for issue by the General Partner on August 20, 2020.

b) Manager

The Partnership has retained Goodman & Company, Investment Counsel Inc. ("GCICI" or the "Manager") as the investment fund manager of the Partnership. The Manager is responsible for providing investment, management, administrative and other services to the Partnership. The Manager is a wholly owned subsidiary of Dundee Corporation, a public Canadian independent holding company listed on the Toronto Stock Exchange under the symbol "DC.A".

c) Financial Reporting Dates

The interim Statement of Financial Position is as at June 30, 2020. The interim Statement of Comprehensive Income, Changes in Net Assets Representing Partners' Equity, and Cash Flows are for the period from commencement of operations on February 20, 2020 to June 30, 2020. Throughout this document, reference to the period refers to the reporting period described here.

2. Basis of Presentation

These unaudited interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standards ("IAS") 34 – *Interim Financial Reporting*.

The unaudited interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

3. Summary of Significant Accounting Policies

a) Fair Value Measurement

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices. In accordance with the provisions of the Partnership's prospectus, and for the purpose of determining the transactional net asset value ("Transactional NAV") per Unit, investment positions are valued based on the last traded market price, and warrants are valued intrinsically. For financial reporting purposes, the Partnership uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value, as appropriate. For financial reporting purposes, the fair value of warrants is measured using the Black-Scholes model.

b) Financial assets at fair value through profit or loss

Classification

The Partnership classifies its investments based on both the Partnership's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Partnership is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Partnership has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Partnership's debt securities are solely principal and interest; however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Partnership's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

Recognition, derecognition and measurement
Regular purchases and sales of investments are recognized on the trade date, which is the date on which the Partnership commits to purchase or sell the investment. Financial assets at fair value through profit or loss are initially recognized at fair value. Transaction costs are expensed as incurred in the interim Statement of Comprehensive Income.

Financial assets are derecognized when the rights to receive cash flows from the investments have expired or the Partnership has transferred substantially all risks and rewards of ownership.

Subsequent to initial recognition, all financial assets at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the "financial assets at fair value through profit or loss" category are presented in the interim Statement of Comprehensive Income within "Net unrealized change in fair value on financial assets at fair value through profit or loss" in the period in which they arise.

Interest income for distribution purposes from fixed income investments, including short-term investments, is recognized on an accrual basis at the contractual interest rate. Interest receivable is shown separately in the interim Statement of Financial Position based on the instruments' stated rates of interest. Dividends are recognized as income on the ex-dividend date, net of withholding tax.

c) Flow-Through Shares
The Partnership invests in flow-through shares. The purchase price of such shares inherently includes the purchase of the flow-through tax deduction. The portion of the purchase price for flow-through shares which the Partnership incurred to acquire the flow-through tax deductions is charged to equity. The value of the flow-through deduction is considered to be the difference between the purchase price of flow-through shares and the fair value of such shares trading without flow-through deductions and is reflected in the interim Statement of Changes in Net Assets Representing Partners' Equity as "Premium paid on acquisition of flow-through shares".

d) Other Assets and Liabilities
"Cash" is a financial asset classified under and measured at amortized cost. "Management fee payable" and "Accrued expenses" are classified and measured at amortized cost.

Under the amortized cost method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's effective interest rate.

e) Transaction Costs
Transaction costs are incremental costs directly attributable to the acquisition, issuance or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges and transfer taxes and duties.

f) Translation of Foreign Currency
The Partnership's investors are mainly from Canada, with the subscriptions and redemptions of the shares denominated in Canadian dollars. The primary activity of the Partnership is to invest in Canadian securities. The performance of the Partnership is measured and reported to the investors in Canadian dollars. The Manager considers the Canadian dollar as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The unaudited interim financial statements are presented in Canadian dollars, which is the Partnership's functional and presentation currency.

Transactions and balances
The fair value of financial assets at fair value through profit or loss and other assets and liabilities denominated in a foreign currency are translated into Canadian dollars at the rate of exchange prevailing on the date of the interim Statement of Financial Position. Transactions denominated in a foreign currency are translated into Canadian dollars at the rate of exchange prevailing on the date of the transactions.

Foreign exchange gains or losses relating to financial assets at fair value through profit or loss are presented in the interim Statement of Comprehensive Income within "Net realized income on financial assets at fair value through profit or loss".

Unrealized foreign currency gains or losses on financial assets at fair value through profit or loss are included in the interim Statement of Comprehensive Income in "Net unrealized change in fair value on financial assets at fair value through profit or loss".

g) Increase in Net Assets from Operations per Unit

The "Increase in Net Assets from Operations per Unit" is disclosed in the interim Statement of Comprehensive Income and represents the increase in net assets from operations for the period divided by the weighted average number of Units outstanding during the period. Refer to Note 8 for the calculation of the Increase in Net Assets from Operations per Unit.

h) Allocation of Partnership Income and Loss

100% of any Canadian Exploration Expense ("CEE") renounced to the Partnership with an effective date in such fiscal year and 99.99% of the net income or net loss of the Partnership for the fiscal year is allocated to limited partners at the end of the fiscal year in proportion to the number of limited partnership Units owned. The Partnership is not itself a taxable entity. Accordingly, no provision for income tax is required. The General Partner is entitled to 0.01% of the net income or net loss of the Partnership.

i) Non-zero Amounts

Some of the balances reported in the unaudited interim financial statements may include amounts that are rounded to zero.

4. Critical Accounting Estimates and Judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the significant accounting judgments and estimates that the Manager has made in preparing the unaudited interim financial statements.

a) Fair Value Measurement of Securities Not Quoted in an Active Market

Key areas of estimation, where the Manager has made complex or subjective judgments, include the determination of fair values of financial instruments that are not quoted in an active market. The fair value of financial assets and liabilities that are not quoted in an active market is determined using valuation techniques. The use of valuation techniques for financial instruments that are not quoted in an active market requires the Manager to make assumptions that are based on market conditions existing as at the date of the financial statements. Changes in these assumptions as a result of changes in market conditions could affect the reported fair value of financial instruments. Valuation techniques used include the application of liquidity discounts to quoted market prices when valuing listed equities that are subject to sale restrictions as well as discounted cash flow analysis.

5. Related Party Transactions

a) Management Fee

The Partnership pays the Manager a management fee for the continuous advice, recommendations and services, including key management personnel, provided to the Partnership. This includes acting as the manager, portfolio advisor and principal distributor to the Partnership. The Manager is also responsible for the Partnership's day-to-day operations.

The management fee is an annualized rate of 2% plus taxes based on the Transactional NAV of the Partnership and is accrued daily and paid monthly as a percentage of the month end Transactional NAV, in accordance with the terms of the management agreement for the Partnership.

In consideration for portfolio advisory services received from the Manager, the Partnership incurred a management fee, inclusive of sales tax, of approximately $123,000 for the period ended June 30, 2020.

b) Performance Bonus

The Manager is entitled to a performance bonus to be paid by the Partnership equal to 20% of the amount by which the net asset value per Unit exceeds $1,120 on the performance bonus date. The performance bonus is calculated on a per Unit basis and multiplied by the number of Units existing at the performance bonus date. The performance bonus date is on the earlier of (i) the date on which the Partnership assets are transferred pursuant to a mutual fund rollover transaction;

(ii) the day a liquidity alternative is completed; and (iii) the day immediately prior to the date the assets of the Partnership are distributed in connection with the dissolution or winding up of the affairs of the Partnership. The performance bonus will be calculated on the performance bonus date and paid as soon as practicable thereafter. As at June 30, 2020, no performance bonus was payable to the Manager.

c) Operating Expenses and Administrative Services

The Partnership is responsible for its operating expenses relating to the carrying on of its business, including custodial services, legal, independent review committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are accrued daily. The Manager pays for such expenses on behalf of the Partnership, except for certain expenses such as interest, and is subsequently reimbursed by the Partnership. As at June 30, 2020, the Partnership owed the Manager approximately $36,000 for expenses paid on the Partnership's behalf. This balance is included in the interim Statement of Financial Position under "Accrued expenses".

In addition, the Partnership incurred expenses paid or payable to the Manager, or to companies affiliated with the Manager, of approximately $41,000 for administrative services, overhead in nature, performed by the Manager during the period. This cost is included in "Unitholder administration costs" on the interim Statement of Comprehensive Income.

d) Transactions in Securities of a Related Issuer

The Partnership may purchase or sell securities of an issuer that is related to the Partnership, GCICI or an entity related to GCICI under prescribed conditions. For these transactions, the Manager received approval from the IRC (see "Standing Instructions from the Independent Review Committee" below). During the period, the Partnership did not enter any transactions involving a related issuer.

e) Inter-Fund Trades

The Partnership may, from time to time, enter into security trades with other investment funds managed by the Manager. These trades will be executed through market intermediaries and under prevailing market terms and conditions. Any such trades will be executed in accordance with applicable securities laws, the Manager's policies and procedures and with the approval of the IRC (see "*Standing Instructions from the Independent Review Committee"* below*)*. During the period, the Partnership did not enter into any security trades with other investment funds managed by the Manager.

f) Participation in Related Offerings

The Partnership may participate in securities offerings where Dundee Goodman Merchant Partners ("DGMP"), a division of GCICI, acted as an exempt market dealer and received a finder's fee and/or commissions from an issuer for facilitating the transaction. For these transactions, the Manager has received approval from the IRC (see "*Standing Instructions from the Independent Review Committee*" below). During the period, the Partnership participated in securities transactions with a combined settlement value of approximately $1,000,000 where DGMP earned finder's fees and/or commissions of approximately $60,000 and 260,870 broker warrants.

g) Standing Instructions from the Independent Review Committee

Pursuant to National Instrument 81-107 – "Independent Review Committee for Investment Funds", the Manager has appointed an independent review committee ("IRC") to oversee the Partnership. Costs and expenses directly associated with the operations of the IRC, including remuneration of IRC members, are chargeable to the Partnership. As at June 30, 2020 the IRC consisted of three members, all of whom are independent of the Manager.

The Partnership received the following standing instructions with respect to related party transactions from the IRC:

(i) purchases or sales of securities of an issuer related to the Partnership, GCICI or an entity related to GCICI;

(ii) purchases or sales of securities of an issuer from or to another investment fund managed by the Manager; and

(iii) participation in any offering where DGMP acts as an exempt market dealer and receives a finder's fee and/or commissions from an issuer.

The applicable standing instructions require the Manager to establish policies and procedures that it will follow with respect to related party transactions. The Manager is required to advise the IRC of any material breach of a condition of the standing instructions.

The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager, free from any influence by any related entity and without taking into account any consideration to the Manager or any associate or affiliate of the Manager; (b) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Partnership; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager, under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Partnership relied on IRC standing instructions regarding related party transactions during the period. The Partnership paid approximately $3,500 for IRC fees for the period ended June 30, 2020. These costs are included in "Unitholder administration costs" on the interim Statement of Comprehensive Income.

6. Partners' Equity

Partners' equity represents the net assets of the Partnership and is comprised of issued Units and retained earnings. The Partnership is not subject to any regulatory requirements on capital. The capital of the Partnership is managed in accordance with the Partnership's investment objectives, policies and restrictions as outlined in the Partnership's prospectus. The Units were issued at a price of $1,000 per Unit, subject to a minimum subscription of five Units for $5,000. Prior to July 1, 2022, the Partnership intends to transfer its assets to a mutual fund in exchange for redeemable shares of said mutual fund.

Pursuant to the terms of the transfer agreement and the partnership agreement, upon completion of the mutual fund rollover transaction and the dissolution of the Partnership, limited partners would receive their pro rata share of said mutual fund shares on a tax-deferred basis.

All Units are of the same class with equal rights and privileges, including equal participation in any distribution made by the Partnership and the right to one vote at any meeting of the limited partners. Under IAS 32 – *Financial Instruments: Presentation*, financial instruments that include a contractual obligation for the issuing entity to deliver a pro rata share of its net assets only on liquidation shall be classified as equity provided they contain certain features. Since the Units of the Partnership contain said features, they are classified as equity.

Summaries of the outstanding Units are outlined in the following table.

Number of Outstanding Units	June 30, 2020
Beginning of period	–
Subscriptions	16,675
End of period	**16,675**

7. Comparison of IFRS Net Assets per Unit and Transactional NAV per Unit

The table below provides a comparison of Net Assets per Unit under IFRS and Transactional NAV per Unit. IFRS Net Assets includes Black-Scholes adjustments to the value of warrants held, whereas the Transactional NAV does not require such adjustments.

	June 30, 2020
Transactional NAV per Unit	$883.43
IFRS Net Assets per Unit	$922.72

8. Increase in Net Assets from Operations per Unit

The increase in net assets from operations per Unit for the period ended June 30, 2020 is calculated as follows:

	June 30, 2020
Increase in net assets from operations (in 000's)	$613
Weighted average of Units outstanding during the period	16,019
Increase in net assets from operations per Unit	**$38.30**

9. Risks Associated with Financial Instruments

The investment activities of the Partnership expose it to a variety of financial risks: credit risk, liquidity risk, market risk (including interest rate risk, currency risk and other price risk) and concentration risk. The Manager seeks to minimize potential adverse effects of these risks on the Partnership's performance by employing and overseeing professional and experienced portfolio advisors that regularly monitor the Partnership's optimal asset mix and market events, as well as diversify the investment portfolio within the constraints of the Partnership's investment objective.

To assist in managing risks, the Manager has established and maintains a governance structure that oversees the Partnership's investment activities and monitors compliance with the Partnership's stated investment objectives and guidelines. Significant risks that are relevant to the Partnership are discussed below.

COVID-19 Global Pandemic
The COVID-19 global pandemic has caused volatility and decline in global financial markets as well as significant disruptions to global business activity. The impact of unanticipated market disruptions, including COVID-19, may exacerbate pre-existing political, social or economic risk, and may disproportionately affect certain issuers, industries or types of securities. Such unanticipated market and economic disruptions, including COVID-19, may be short-term or may last for an extended period of time, and could have effects that cannot necessarily be presently foreseen.

Credit Risk
Credit risk is the risk that one party to a financial instrument will cause a financial loss for the counterparty by failing to discharge an obligation. The Partnership may become exposed to credit risk from the purchase of debt instruments, engaging in securities transactions or through the use of custody, loan and/or bank accounts, as applicable.

The Partnership had no significant exposure to debt instruments as at June 30, 2020.

All investment transactions are settled on delivery, minimizing the risk of default on investment transactions. Delivery of securities on a sale is only made once the custodian has received payment and, conversely, payment is only made on a purchase once the securities have been delivered to the custodian. The trade will fail if either party fails to meet its obligations. When the Partnership trades in listed or unlisted securities through a broker, the Partnership only transacts with reputable brokers that are duly registered with applicable securities regulators. In addition, custody transactions are carried out by counterparties that have a Standard & Poor's credit rating of "A" or higher. As such, credit risk tied to securities transactions is considered minimal.

The Partnership holds its cash with a Canadian Prime Broker with a Standard & Poor credit rating of "A+".

The Partnership only deposits assets with reputable companies that are eligible to act as a custodian under the provisions of National Instrument 81-102 – "Investment Funds". However, in the event of bankruptcy or insolvency of such companies, the securities or other assets deposited therewith may be exposed to credit risk, or access to those securities or other assets may be delayed or limited.

Liquidity Risk
Liquidity risk is the risk that the Partnership may not be able to settle or meet its obligations on time or at a reasonable price. In order to maintain sufficient liquidity, the Partnership typically invests its assets in securities that are traded in an active market and can be readily disposed. The Partnership also invests in securities that are not traded in an active market and may be illiquid. Such investments are identified as restricted securities in the Schedule of Investment Portfolio. In addition, the Partnership aims to retain sufficient cash positions to maintain liquidity.

The financial liabilities disclosed in the interim Statement of Financial Position are all current liabilities, and are therefore normally paid within the fiscal year.

Interest Rate Risk
Interest rate risk is the risk that the fair value or future cash flows of the Partnership's financial instruments will fluctuate due to changes in the prevailing levels of market interest rates.

As at June 30, 2020, the Partnership had no significant exposure to interest rate risk.

Currency Risk
Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. Exposure to currency risk is mainly in financial instruments (including cash) that are denominated in a currency other than Canadian dollars, which is the functional currency of the Partnership. The Partnership had no significant exposure to currency risk as at June 30, 2020.

Other Price Risk
Other price risk is the risk that the fair value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) caused by factors specific to a security, its issuer or all factors affecting a market or a market segment. Exposure to other price risk is related to equities held by the Partnership. As at June 30, 2020, approximately $5,208,000 of the Partnership's net assets were exposed to other price risk. If prices of these investments had decreased or increased by 15%, before considering changes to management and performance fees, net assets of the Partnership would have decreased or increased, respectively, by approximately $781,000.

Concentration Risk
Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, or industry sector. The following is a summary of the Partnership's concentration risk.

As a Percentage of Net Assets (%)	June 30, 2020
EQUITIES AND WARRANTS	**33.8**
Gold and Precious Metals	23.0
Diversified Metals and Mining	8.8
Energy (Other)	2.0

10. Fair Value Hierarchy

The Partnership classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 1 financial instruments include actively listed equities and other publicly quoted investments. The Manager does not adjust the quoted price for these instruments.

Level 2 – Inputs to the valuation methodology include inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument, including quoted prices for similar assets and liabilities in active markets. Level 2 financial instruments include those that trade in markets that are not considered to be active but are valued based on quoted market prices or dealer quotations supported by observable inputs. These include certain listed equities that are subject to sale restrictions, whose valuations may be adjusted to reflect illiquidity.

Level 3 – Inputs to the valuation methodology are based on unobservable market data. Level 3 financial instruments are those that have at least one significant unobservable input, as they are not based on quoted market prices. Level 3 instruments include private equity and private debt securities. As observable prices are not available for these securities, the Manager has used valuation techniques to derive fair value. Level 3 valuations are reviewed on a quarterly basis by the Partnership's valuation committee, which evaluates the model inputs as well as the valuation results prior to making any fair value determinations regarding the Partnership's Level 3 financial instruments.

The following table summarizes the fair value hierarchy of the Partnership's financial instruments as at June 30, 2020.

June 30, 2020 **(in 000's)**	**Level 1**	**Level 2**	**Level 3**	**Total**
Equities	$1,789	$2,691	$-	$4,480
Warrants	-	728	-	728
Total Financial Instruments	**$1,789**	**$3,419**	**$-**	**$5,208**
