## MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

---

The accompanying unaudited interim financial statements have been prepared by Goodman & Company, Investment Counsel Inc. (“GCICI”), in its capacity as manager (“Manager”) of Dundee Global Resource Class (the “Fund”). The Manager is responsible for the information and representations contained in these unaudited interim financial statements and the management report of fund performance.

GCICI maintains appropriate processes to provide reasonable assurance that relevant and reliable financial information is produced. The unaudited interim financial statements have been prepared in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments made by GCICI. The significant accounting policies which GCICI believes are appropriate for the Fund are described in Note 3 to these unaudited interim financial statements.

PricewaterhouseCoopers LLP are the external auditors of the Fund, appointed by the Manager.

*(signed)*

ROBERT SELLARS  
Vice President and Chief Financial Officer  
Goodman & Company, Investment Counsel Inc.

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

---

### Investment Objective and Strategies

Dundee Global Fund Corporation (the “Corporation”) is a mutual fund corporation incorporated on January 20, 2015 under the laws of the Province of Ontario.

The authorized capital of the Corporation consists of an unlimited number of voting common shares and an unlimited number of up to 100 classes of non-voting, participating mutual fund shares, each issuable in series. As at June 30, 2017, the Corporation had issued one class of shares, the Dundee Global Resource Class (the “Fund”). The Fund aims to provide long-term capital appreciation by investing primarily in Canadian resource companies that offer attractive risk-reward characteristics as well as other predominantly Canadian equities that offer the potential for capital appreciation.

From time to time, the Fund also acquires the assets, on a tax-deferred basis, from certain limited partnerships established by Goodman & Company, Investment Counsel Inc. (“GCICI” or the “Manager”). The assets of each limited partnership is expected to consist primarily of a portfolio of flow-through shares of junior and intermediate resource companies. The tax cost to the Fund of these shares is nil and the Fund will therefore realize capital gains to the full extent of the net proceeds received for these shares when they are sold by the Fund.

The Manager will invest primarily in both public and private junior and intermediate Canadian resource companies. The Manager will evaluate industry and company fundamentals to evaluate investment opportunities which offer the most attractive risk versus reward. Before an initial investment is made, a management interview is typically conducted to determine the important future drivers for shareholder value creation. In addition to the issuer’s strategic corporate plan, the strengths and weaknesses of the issuer’s management, board, and technical teams are assessed. The willingness of the management team to take different levels of risk to achieve their long term goals and the ability of the issuer to meet its stated goals and key financial metrics are also examined. Technical analysis is also employed in combination with the Manager’s fundamental research to assist in making timely decisions regarding the purchase and sale of investments. In support of the bottom up securities selection process, an understanding of the macro environment is developed using a wide range of industry contacts.

### Risks

The risks associated with investing in the Fund are as described in the prospectus and are incorporated by reference herein.

### Results of Operations<sup>1</sup>

For the six-month period ended June 30, 2017<sup>2</sup>, the Series A shares of the Fund generated a total return of negative 0.2% and the Series F shares of the Fund generated a total return of positive 0.2% on a net asset value basis. Over the same period, the S&P/TSX Composite Index returned positive 0.7%. Unlike the returns of this index, the Fund’s returns are reported net of all management fees and expenses. Readers are also cautioned that the Fund’s investment mandate is significantly different from the S&P/TSX Composite Index. The Fund’s performance is, therefore, not expected to equal the performance of the S&P/TSX Composite Index. It may be more helpful for investors to compare the Fund’s performance to that of other mutual funds with similar objectives and investment disciplines.

After multiple years of sector underperformance, the bull rally for mining stocks that started in 2016, carried over to the first couple of months of 2017. The S&P/TSX Gold index peaked in February, up 20.0% since the beginning of the year, before ending the first six-month period of 2017 lower, increasing 1.3%. The stocks diverged from the underlying commodity as gold was at its lowest point at the beginning of January and gradually reached a new high by the middle of June. The divergence was caused by money flowing out of mining stocks and into the broader market, as multiple indices were hitting all-time highs.

---

<sup>1</sup> All references to net assets or net asset value in this section refer to Transactional NAV as defined in the Financial Highlights section, which may differ from IFRS Net Assets.

<sup>2</sup> Unless otherwise indicated, references to the period or periods refer to the six-month period ended June 30, 2017 and 2016 throughout this document.

# Dundee Global Resource Class

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

---

The performance of base metals stocks mirrored that of gold equities, but with much more volatility, reaching highs in February before finishing the first six-months in negative territory. The S&P/TSX Diversified Metals Index climbed 27.6% by the middle of February, before finishing the period down 10.2%. The underlying copper price was not as volatile as the equities and peaked in mid-February, before ending the period essentially flat.

The first half of 2017 was also a good period to be underweight oil companies. The price of oil began the year at \$55 per barrel, before hitting a low of \$42 barrel in June and recovering to \$46 to close off the period. For the period, the S&P/TSX Oil Index trended lower, falling approximately 21.9%. This was due to an increase in production from the United States coupled with an inability of OPEC countries to stick to their quotas, leading to a glut in the oil market.

Mining companies with exploration successes continued to attract investors, while companies with limited news generally shed value over the period. The top performing names in the fund, NexGen Energy and Integra Gold, both had very good exploration success, with Integra capitalizing on that success to attract a larger mining producer to acquire them. Two of the poorer performing stocks in the fund were African producing companies, SEMAFO Inc. and Asanko Gold, as investors shied away from riskier mining jurisdictions.

The following table highlights changes in both the Fund's transactional net asset value ("Transactional NAV") and net assets determined using International Financial Reporting Standards ("IFRS Net Assets") during the period. Refer to the financial highlights section for further information on the differences between Transactional NAV and IFRS Net Assets.

### Net Asset Value Comparison (\$CAD, in millions)

|                                      | Transactional NAV | IFRS Net Assets |
|--------------------------------------|-------------------|-----------------|
| Balance, January 1, 2017             | \$18.2            | \$18.9          |
| Issuance of shares on rollover       | 21.9              | 21.9            |
| Issuance of shares                   | 0.1               | 0.1             |
| Redemption of shares                 | (18.4)            | (18.4)          |
| Investment performance               | (0.5)             | (0.2)           |
| Net fees and expenses <sup>(a)</sup> | (0.5)             | (0.7)           |
| <b>Balance, June 30, 2017</b>        | <b>\$20.8</b>     | <b>\$21.6</b>   |

(a) Net of interest and dividend income. Transaction costs are expensed in calculating IFRS Net Assets.

### Related Party Transactions

The following arrangements result in fees paid by the Fund to GCICI or to companies affiliated with the Fund.

#### Management Fees

The Fund pays the Manager a management fee for the continuous advice, recommendations and services, including key management personnel, provided to the Fund. This includes acting as the manager, portfolio advisor and principal distributor to the Fund. The Manager is also responsible for the Fund's day-to-day operations.

The management fee is an annualized rate of 2% plus taxes based on the Transactional NAV of the Series A Shares and 1% plus taxes based on the Transactional NAV of the Series F Shares, and is accrued daily and paid monthly as a percentage of the month end Transactional NAV in accordance with the terms of the management agreement for the Fund.

For the period ended June 30, 2017, the Fund incurred a management fee, inclusive of sales tax, of approximately \$276,000 (June 30, 2016 - \$304,000).

#### Performance Fee

The Fund may also pay a performance fee to the Manager in respect of Series A and Series F Shares of the Fund. The performance fee, if payable, will equal 20% of the excess between the current net asset value per Share and the Hurdle NAVPS. Hurdle NAVPS means the greater of (i) the High Water Mark per Share, or (ii) the High Water Mark per Share multiplied by the sum of (A) 100% and (B) the Benchmark Performance.

High Water Mark means, with respect to a Share, the greater of: (i) the issuance price of such Share and (ii) the net asset value per Share on the last business day of any calendar year in which a performance fee was earned by the Manager, in each case excluding the effect of any distributions per Share made by the Fund to the net asset value of the Share. The Benchmark Performance means the average of the simple rates of return of (i) the S&P/TSX Oil & Gas Exploration & Production Subgroup Index; (ii) the S&P/TSX Diversified Metals & Mining Subgroup Index; (iii) S&P/TSX Gold Subgroup Index; and

# Dundee Global Resource Class

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

---

(iv) the S&P/TSX Composite Index, during the period since a performance fee for the relevant series was last payable (or in respect of the first instance in which a performance fee may be payable, since inception of the Fund).

The performance fee will be calculated on the performance fee date and paid as soon as practicable thereafter. For the period ended June 30, 2017, the Fund accrued a performance fee, inclusive of sales tax, of approximately \$36,000 (June 30, 2016 - \$1,584,000).

### ***Operating Expenses and Administrative Services***

The Fund is responsible for its operating expenses relating to the carrying on of its business, including custodial services, legal, independent review committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are accrued daily. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is subsequently reimbursed by the Fund. As at June 30, 2017, the Fund owed the Manager approximately \$64,000 (December 31, 2016 - \$49,000) for expenses paid on the Fund's behalf.

In addition, the Fund incurred expenses paid or payable to the Manager, or to companies affiliated with the Manager, of approximately \$69,000 (June 30, 2016 - \$69,000) for administrative services, overhead in nature, performed by the Manager during the period.

### ***Commissions and Related Brokerage Commissions***

Brokerage commissions of approximately \$58,000 (June 30, 2016 - \$68,000) were paid on securities transactions during the period, none of which was paid to Dundee Securities Ltd. ("DSL"), an affiliate of GCICI (June 30, 2016 - \$4,000). Soft dollar commissions, if any, represent amounts paid indirectly to third parties through a broker or dealer for services received by the Fund that do not pertain to trading execution. There were no soft dollar commissions paid by the Fund in either the current or prior period.

### ***Inter-Fund Trades***

The Fund may, from time to time, enter into security trades with other investment funds managed by the Manager. These trades will be executed through market intermediaries and under prevailing market terms and conditions. Any such trades will be executed in accordance with applicable securities laws, the Manager's policies and procedures and with the approval of the IRC (see "*Standing Instructions from the Independent Review Committee*" below). The Fund did not enter into any security trades with other investment funds managed by the Manager.

### ***Underwriting of Securities***

The Fund may invest in securities offerings where DSL, in its capacity as an investment dealer, acted as underwriter in the offering of the securities. For these transactions, the Manager will receive exemptive relief from securities regulatory authorities or receive approval from the IRC (see "*Standing Instructions from the Independent Review Committee*" below).

### ***Standing Instructions from the Independent Review Committee***

Pursuant to National Instrument 81-107 – "Independent Review Committee for Investment Funds", the Manager has appointed an independent review committee ("IRC") to oversee the Fund. Costs and expenses directly associated with the operations of the IRC, including remuneration of IRC members, are chargeable to the Fund. As at June 30, 2017, the IRC consisted of three members, all of whom are independent of the Manager.

The Fund received the following standing instructions with respect to related party transactions from the IRC:

- (i) paying brokerage commissions to DSL for effecting security transactions on an agency and principal basis on behalf of the Fund (referred to as "Related Brokerage Commissions");
- (ii) subject to receipt of exemptive relief in certain circumstances, purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- (iii) executing foreign exchange transactions with DSL on behalf of the Fund; and
- (iv) participating in an underwriting involving DSL acting in its capacity as an investment dealer on behalf of the issuer.

The applicable standing instructions require the Manager to establish policies and procedures that it will follow with respect to related party transactions. The Manager is required to advise the IRC of any material breach of a condition of the standing instructions.

# Dundee Global Resource Class

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager, free from any influence by any related entity and without taking into account any consideration to the Manager or any associate or affiliate of the Manager; (b) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager, under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Fund relied on IRC standing instructions regarding related party transactions during the period.

The Fund paid approximately \$3,000 (June 30, 2016: \$3,000) for IRC fees for the period ended June 30, 2017. These costs are included in "Shareholder administration costs" on the interim Statements of Comprehensive Income (Loss).

### Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help readers understand the Fund's financial performance for the periods indicated. The information on the following tables is based on prescribed regulations. As a result, subtotals are not expected to equal aggregate totals due to the increase (decrease) in net assets attributable to holders of redeemable shares being based on the weighted average number of shares outstanding during the period and all other numbers being based on actual number of shares outstanding as at the relevant point in time.

#### *The Fund's Net Assets Attributable to Holders of Redeemable Shares per Share*<sup>(1)</sup> (Fund inception April 13, 2015)

|                                                                                                            | June 30, 2017   |                 | December 31, 2016 |                |

\* These percentages are annualized.

- (1) This information is derived from the Fund's audited (for period ended December 31, 2016) financial statements and unaudited interim (for current period end) financial statements. Net assets attributable to holders of redeemable shares per share presented in the interim financial statements may differ from net asset value calculated for pricing purposes. An explanation of these differences, if any, can be found in Note 6 below. Some of the \$nil balances reported in the Financial Highlights may include amounts that are rounded to zero.

# Dundee Global Resource Class

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

- (2) Net assets attributable to holders of redeemable shares per share are based on the actual number of shares outstanding at the relevant time. The increase (decrease) in net assets attributable to holders of redeemable shares per Share is based on the weighted average number of Shares outstanding over the period.
- (3) The management expense ratio (“MER”) is based on the total expenses (excluding commissions and other portfolio transaction costs) of the Fund for the stated period expressed as an annualized percentage of daily average net asset value during the period. The following MER statistics are presented for information purposes.

|                                              | June 30, 2017 |          | December 31, 2016 |          |
|----------------------------------------------|---------------|----------|-------------------|----------|
|                                              | Series A      | Series F | Series A          | Series F |
| MER excluding performance fees               | 3.80%         | 2.84%    | 3.64%             | 2.69%    |
| MER excluding performance fees and sales tax | 3.33%         | 2.44%    | 3.22%             | 2.38%    |

- (4) The trading expense ratio (“TER”) represents total commissions and other portfolio transaction costs of the Fund expressed as an annualized percentage of daily average net asset value of the Fund during the period.
- (5) The Fund’s portfolio turnover rate indicates how actively the portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to an investment fund buying and selling all of the securities in its portfolio once in the course of the fiscal period. The higher the portfolio turnover rate in a period, the greater the trading costs payable by an investment fund in the period and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of an investment fund. The portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period by the average market value of investments during the period.
- (6) National Instrument 81-106 – “Investment Fund Continuous Disclosure” (“NI 81-106”) requires all investment funds to calculate net asset value for all purposes other than for financial statements in accordance with part 14.2, which differs in some respects from the requirements of IFRS. In accordance with IFRS, the fair value of warrants is determined using Black-Scholes, whereas for the Transactional NAV, the warrants are valued intrinsically. A reconciliation between Transactional NAV and IFRS Net Assets is provided below.

|                                 | Total (\$000's) | Per Share (\$) |
|---------------------------------|-----------------|----------------|
| Transactional NAV Series A      | 19,270          | 10.32          |
| Valuation adjustment Series A   | 764             | 0.42           |

### Management Fee

The Fund pays a management fee to its Manager for the sole provision of portfolio advisory services. The management fee is calculated at an annualized rate of 2% of the Transactional NAV of the Series A Shares and 1% of the Transactional NAV of the Series F Shares and is accrued daily and paid monthly.

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

---

### Past Performance

The following chart shows the annual performance of the Fund and illustrates how the Fund's performance has varied from year to year. The chart shows, in percentage terms, how much an investment held on the first day of each year would have increased or decreased by the last day of each year. Past performance of the Fund will not necessarily indicate how the Fund will perform in the future.

- (1) Since commencement of operations to December 31, 2015.
- (2) Six month period ended June 30, 2017.

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

---

### **Caution Regarding Forward-Looking Statements**

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Fund, as applicable, including statements with respect to strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects and possible future Fund action is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, current assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above mentioned list of important factors is not exhaustive.

We encourage readers to consider these and other factors carefully before making any investment decisions and we urge readers to avoid placing any undue reliance on forward-looking statements. Further, readers should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next management report of fund performance.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

---

### 1. The Fund

#### a) Organization of the Fund

Dundee Global Fund Corporation (the “Corporation”) is a mutual fund corporation incorporated on January 20, 2015, under the laws of the Province of Ontario. The registered office of the Corporation is located at 1 Adelaide Street East, Suite 2100, Toronto, Ontario, M5C 2V9.

The authorized capital of the Corporation consists of an unlimited number of voting common shares and an unlimited number of up to 100 classes of non-voting, participating mutual fund shares, each issuable in series. As at June 30, 2017, Goodman & Company, Investment Counsel Inc. (“GCICI” or the “Manager”) was the owner and beneficial owner of 100% of the outstanding common shares.

As at June 30, 2017, the Corporation had issued one class of shares, the Dundee Global Resource Class (the “Fund”). The Fund aims to provide long-term capital appreciation by investing primarily in Canadian resource companies that offer attractive risk-reward characteristics as well as other Canadian equities that offer the potential for capital appreciation. The Fund was formed on April 13, 2015, and Fund shares (the “Shares”) were issued on April 15, 2015. The principal office of the Fund is located at 1 Adelaide Street East, Suite 2100, Toronto, Ontario, M5C 2V9.

On January 29, 2016, CMP 2014 Resource Limited Partnership (“CMP 2014”) completed a rollover of its net assets of approximately \$17,036,000 into the Fund in exchange for approximately 1,827,000 series A Shares of the Fund, which were distributed to limited partners of CMP 2014 on February 26, 2016. Limited partners of CMP 2014 received 57.3670 series A Shares of the Fund for each unit of CMP 2014 held as of January 29, 2016. This transaction is accounted for as a subscription-in-kind, and is presented in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares as “Issuance of shares on rollover transaction”.

On February 3, 2017, CMP 2015 Resource Limited Partnership (“CMP 2015”) completed a rollover of its net assets of approximately \$21,867,000 into the Fund in exchange for approximately 1,741,000 series A Shares of the Fund, which were distributed to limited partners of CMP 2015 on February 24, 2017. Limited partners of CMP 2015 received 85.8820 series A Shares of the Fund for each unit of CMP 2015 held as of February 3, 2017. This transaction is accounted for as a subscription-in-kind, and is presented in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares as “Issuance of shares on rollover transaction”.

These interim financial statements were approved for issue by the Manager on August 25, 2017.

#### b) Manager

In accordance with the terms and conditions of the management agreement, the Fund has retained the Manager as the investment fund manager of the Fund. The Manager is responsible for providing investment, management, administrative and other services to the Fund. The Manager is a wholly owned subsidiary of Dundee Corporation, a public Canadian independent holding company listed on the Toronto Stock Exchange under the symbol “DC.A”.

#### c) Financial Reporting Dates

The interim Statements of Financial Position are as at June 30, 2017 and December 31, 2016. The interim Statements of Comprehensive Income (Loss), Changes in Net Assets Attributable to Holders of Redeemable Shares, and Cash Flows are for the six-month period ended June 30, 2017 and 2016. Throughout this document, references to the period or periods refer to the reporting periods described here.

These interim financial statements present the financial position and results of operations of the Fund as a separate reporting entity.

### 2. Basis of Presentation

These interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34 – *Interim Financial Reporting*.

---

### 3. Summary of Significant Accounting Policies

#### a) Fair Value Measurement

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices. In accordance with the provisions of the Fund's prospectus, investment positions are valued based on the last traded market price for the purpose of determining the transactional net asset value ("Transactional NAV") per Share. For financial reporting purposes, the Fund uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value, as appropriate.

#### b) Financial Instruments

The Fund recognizes financial instruments at fair value upon initial recognition, plus transaction costs in cases pertaining to financial instruments measured at amortized cost. The Fund's investments are classified as financial instruments carried at fair value through profit or loss ("FVTPL"). Some of the Fund's investments have been classified as financial instruments at FVTPL as they meet the criteria for designation as held-for-trading ("HFT") securities. The Fund has elected to designate other investments that do not meet the HFT criteria as financial assets at FVTPL ("Designated FVTPL").

#### c) Other Assets and Liabilities

"Cash", "Accrued dividends" and "Other assets" are financial instruments designated as loans and receivables and are recorded at amortized cost. Similarly, "Performance fee payable", "Accrued expenses", "Redemptions payable", and "Management fee payable" are financial instruments designated as other financial liabilities and are recorded at amortized cost. Amortized cost approximates fair value for these assets and liabilities, as they are short term in nature.

Under the amortized cost method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's effective interest rate.

#### d) Investment Transactions

Investment transactions are recorded on a trade date basis. The cost of investments represents the amount paid for each security, excluding transaction costs.

#### e) Transaction Costs

Transaction costs are incremental costs directly attributable to the acquisition, issuance or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges and transfer taxes and duties. Transaction costs related to financial instruments measured at FVTPL are expensed as incurred.

#### f) Income Recognition/Derecognition

The Fund recognizes financial assets or liabilities designated at FVTPL on the trade date, which is the date it commits to purchase the instruments. From this date, any gains and losses arising from changes in fair value of the assets or liabilities are recognized in the interim Statement of Comprehensive Income (Loss).

Financial assets are derecognized when the contractual rights to the cash flows from the asset expire or the financial asset and substantially all the risks and rewards of ownership of the asset have been transferred to another entity. The Fund derecognizes financial liabilities when the Fund's obligations are discharged, cancelled or expired.

Interest income is accrued as earned, and dividend income is recognized on the ex-dividend date.

#### g) Increase (decrease) in Net Assets Attributable to Holders of Redeemable Shares per Share

The "Increase (decrease) in Net Assets Attributable to Holders of Redeemable Shares per Share" is disclosed in the interim Statements of Comprehensive Income (Loss) and represents the Increase (decrease) in net assets attributable to holders of redeemable shares for each series for the period divided by the weighted average number of Shares of each series outstanding during the period. Refer to Note 9 for the calculation of the Increase (decrease) in Net Assets Attributable to Holders of Redeemable Shares per Share.

# Dundee Global Resource Class

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

---

### h) Allocation of Income and Expenses to Series of Shares

On each day that the Toronto Stock Exchange is open for business (the "Valuation Date"), the income earned and common expenses incurred since the previous Valuation Date are allocated proportionately amongst all series of Shares outstanding as of the previous Valuation Date, based on such series' respective net asset values.

### i) Non-Zero Amounts

Some of the balances reported in the financial statements may include amounts that are rounded to zero.

### j) Accounting Standards Issued but Not Yet Adopted

The final version of IFRS 9 - *Financial Instruments* ("IFRS 9"), was issued by the International Accounting Standards Board in July 2014 and will replace IAS 39 - *Financial Instruments: Recognition and Measurement* ("IAS 39"). IFRS 9 introduces a model for classification and measurement, a single, forward-looking expected loss impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of an entity's own credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognized in profit or loss. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Fund is in the process of assessing the impact of IFRS 9, and it will not adopt the new standard early.

## 4. Critical Accounting Estimates and Judgments

The preparation of interim financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Manager has made in preparing the interim financial statements.

### a) Classification and Measurement of Investments and Application of the Fair Value Option

Significant judgment is applied by the Fund in determining whether financial instruments that do not meet the HFT criteria may be classified as Designated FVTPL. In determining whether a financial instrument may be classified as Designated FVTPL, the Fund must assess whether the financial instrument is part of a group of financial instruments that is managed and its performance evaluated on a fair value basis in accordance with a specified investment strategy.

### b) Fair Value Measurement of Derivatives and Securities Not Quoted in an Active Market

Key areas of estimation, where the Manager has made complex or subjective judgments, include the determination of fair values of financial instruments that are not quoted in an active market. The fair value of financial assets and liabilities that are not quoted in an active market is determined using valuation techniques. The use of valuation techniques for financial instruments that are not quoted in an active market requires the Manager to make assumptions that are based on market conditions existing as at the date of the financial statements. Changes in these assumptions as a result of changes in market conditions could affect the reported fair value of financial instruments. Valuation techniques include the use of comparable recent arm's-length transactions, option pricing models and other valuation techniques commonly used by market participants.

## 5. Taxation

### a) Taxation of Mutual Fund Corporations

The Corporation qualifies as a mutual fund corporation under the Income Tax Act (Canada) and has a tax year end of December 31. Mutual fund corporations are subject to a 38.33% refundable tax on taxable dividends received from taxable Canadian corporations. This tax is refunded to the corporation at a rate of \$1 for every \$2.61 of taxable dividends paid in the future to shareholders. Any such tax paid is reported as an amount receivable until recovered through payment of dividends to shareholders. The Corporation is also subject to corporate tax rates on taxable capital gains and other income. Any tax on taxable capital gains is refundable on a formula basis when its shares are redeemed or when gains are distributed to shareholders as capital gains dividends. As a result of the Corporation's ability to receive refund of taxes in respect of dividends and taxable capital gains and availability of sufficient operating expenses to offset other income, the Corporation does not record any provision for income taxes.

# Dundee Global Resource Class

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

---

### b) Losses Carried Forward

The Corporation may accumulate net capital losses and non-capital losses. Net capital losses can be carried forward indefinitely to reduce future net realized capital gains. Non-capital losses realized in taxation years ending after 2005 may be carried forward up to twenty years. As at December 31, 2016, the Corporation did not have any capital or non-capital losses available to carry forward.

## 6. Expenses and Related Party Transactions

### a) Management Fee

The Fund pays the Manager a management fee for the continuous advice, recommendations and services, including key management personnel, provided to the Fund. This includes acting as the manager, portfolio advisor and principal distributor to the Fund. The Manager is also responsible for the Fund's day-to-day operations.

The management fee is an annualized rate of 2% plus taxes based on the Transactional NAV of the Series A Shares and 1% plus taxes based on the Transactional NAV of the Series F Shares, and is accrued daily and paid monthly as a percentage of the month end Transactional NAV in accordance with the terms of the management agreement for the Fund. For the period ended June 30, 2017, the Fund incurred a management fee, inclusive of sales tax, of approximately \$276,000 (June 30, 2016 - \$304,000).

### b) Performance Fee

The Fund may also pay a performance fee to the Manager in respect of Series A and Series F Shares of the Fund. The performance fee, if payable, will equal 20% of the excess between the current net asset value per Share and the Hurdle NAVPS. Hurdle NAVPS means the greater of (i) the High Water Mark per Share, or (ii) the High Water Mark per Share multiplied by the sum of (A) 100% and (B) the Benchmark Performance.

High Water Mark means, with respect to a Share, the greater of: (i) the issuance price of such Share and (ii) the net asset value per Share on the last business day of any calendar year in which a performance fee was earned by the Manager, in each case excluding the effect of any distributions per Share made by the Fund to the net asset value of the Share. The Benchmark Performance means the average of the simple rates of return of (i) the S&P/TSX Oil & Gas Exploration & Production Subgroup Index; (ii) the S&P/TSX Diversified Metals & Mining Subgroup Index; (iii) S&P/TSX Gold Subgroup Index; and (iv) the S&P/TSX Composite Index, during the period since a performance fee for the relevant series was last payable (or in respect of the first instance in which a performance fee may be payable, since inception of the Fund).

The performance fee will be calculated on the performance fee date and paid as soon as practicable thereafter. For the period ended June 30, 2017, the Fund accrued a performance fee, inclusive of sales tax, of approximately \$36,000 (June 30, 2016 - \$1,584,000).

### c) Operating Expenses and Administrative Services

The Fund is responsible for its operating expenses relating to the carrying on of its business, including custodial services, legal, independent review committee fees, audit fees, transfer agency services and the cost of financial and other reports in compliance with all applicable laws, regulations and policies. Such expenses are accrued daily. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is subsequently reimbursed by the Fund. As at June 30, 2017, the Fund owed the Manager approximately \$64,000 (December 31, 2016 - \$49,000) for expenses paid on the Fund's behalf.

In addition, the Fund incurred expenses paid or payable to the Manager, or to companies affiliated with the Manager, of approximately \$69,000 (June 30, 2016 - \$69,000) for administrative services, overhead in nature, performed by the Manager during the period.

### d) Commissions and Related Brokerage Commissions

Brokerage commissions of approximately \$58,000 (June 30, 2016 - \$68,000) were paid on securities transactions during the period, none of which was paid to Dundee Securities Ltd. ("DSL"), an affiliate of GCICI (June 30, 2016 - \$4,000). Soft dollar commissions, if any, represent amounts paid indirectly to third parties through a broker or dealer for services received by the Fund that do not pertain to trading execution. There were no soft dollar commissions paid by the Fund in either the current or prior period.

# Dundee Global Resource Class

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

---

### e) **Inter-Fund Trades**

The Fund may, from time to time, enter into security trades with other investment funds managed by the Manager. These trades will be executed through market intermediaries and under prevailing market terms and conditions. Any such trades will be executed in accordance with applicable securities laws, the Manager's policies and procedures and with the approval of the IRC (see "*Standing Instructions from the Independent Review Committee*" below). The Fund did not enter into any security trades with other investment funds managed by the Manager.

### f) **Underwriting of Securities**

The Fund may invest in securities offerings where DSL, in its capacity as an investment dealer, acted as underwriter in the offering of the securities. For these transactions, the Manager will receive exemptive relief from securities regulatory authorities or receive approval from the IRC (see "*Standing Instructions from the Independent Review Committee*" below).

### g) **Standing Instructions from the Independent Review Committee**

Pursuant to National Instrument 81-107 – "Independent Review Committee for Investment Funds", the Manager has appointed an independent review committee ("IRC") to oversee the Fund. Costs and expenses directly associated with the operations of the IRC, including remuneration of IRC members, are chargeable to the Fund. As at June 30, 2017, the IRC consisted of three members, all of whom are independent of the Manager.

The Fund received the following standing instructions with respect to related party transactions from the IRC:

- (i) paying brokerage commissions to DSL for effecting security transactions on an agency and principal basis on behalf of the Fund (referred to as "Related Brokerage Commissions");
- (ii) subject to receipt of exemptive relief in certain circumstances, purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- (iii) executing foreign exchange transactions with DSL on behalf of the Fund; and
- (iv) participating in an underwriting involving DSL acting in its capacity as an investment dealer on behalf of the issuer.

The applicable standing instructions require the Manager to establish policies and procedures that it will follow with respect to related party transactions. The Manager is required to advise the IRC of any material breach of a condition of the standing instructions.

The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager, free from any influence by any related entity and without taking into account any consideration to the Manager or any associate or affiliate of the Manager; (b) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager, under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Fund relied on IRC standing instructions regarding related party transactions during the period.

The Fund paid approximately \$3,000 (June 30, 2016: \$3,000) for IRC fees for the period ended June 30, 2017. These costs are included in "Shareholder administration costs" on the interim Statements of Comprehensive Income (Loss).

## 7. **Redeemable Shares**

Shares of the Fund are redeemable at the option of the shareholder in accordance with the terms of the Fund's prospectus at their Transactional NAV. The capital of the Fund is managed in accordance with the Fund's investment objectives, policies and restrictions, as outlined in the Fund's prospectus.

Under IFRS, International Accounting Standard 32, *Financial Instruments: Presentation*, ("IAS 32") requires that units or shares of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as financial liability. As the Fund issues equally subordinated Shares that do not carry identical features, the Fund does not fully meet the requirements under IAS 32 for classifying the Shares as equity. As a result, the Fund's outstanding redeemable Shares are classified as financial liabilities.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

The movements in the outstanding Shares are outlined in the following table.

| Number of Outstanding Shares            | June 30, 2017    |                |
|-----------------------------------------|------------------|----------------|
|                                         | Series A         | Series F       |
| Beginning of period                     | 1,527,114        | 110,625        |
| Shares issued from rollover transaction | 1,741,000        | –              |
| Shares issued from subscriptions        | 4,500            | –              |
| Conversion of shares                    | (55,133)         | 54,102         |
| Shares reinvested                       | 225,497          | 6,929          |
| Shares redeemed                         | (1,578,009)      | (29,719)       |
| <b>End of period</b>                    | <b>1,864,969</b> | <b>141,937</b> |

| Number of Outstanding Shares            | June 30, 2016    |                |
|-----------------------------------------|------------------|----------------|
|                                         | Series A         | Series F       |
| Beginning of period                     | 1,867,490        | 51,924         |
| Shares issued from rollover transaction | 1,827,368        | –              |
| Conversion of shares                    | (79,014)         | 78,824         |
| Shares redeemed                         | (1,394,261)      | (10,826)       |
| <b>End of period</b>                    | <b>2,221,583</b> | <b>119,922</b> |

### 8. Comparison of IFRS Net Assets per Share and Transactional NAV per Share

The table below provides a comparison of Net Assets per Share under IFRS and Transactional NAV per Share. IFRS Net Assets includes Black-Scholes adjustments to the value of warrants held, whereas the Transactional NAV does not require such adjustments.

|                             | June 30, 2017 |          |
|-----------------------------|---------------|----------|
|                             | Series A      | Series F |
| Transactional NAV per Share | \$10.32       | \$10.51  |
| IFRS Net Assets per Share   | \$10.74       | \$10.93  |

|                             | December 31, 2016 |          |
|-----------------------------|-------------------|----------|
|                             | Series A          | Series F |
| Transactional NAV per Share | \$ 11.10          | \$ 11.22 |
| IFRS Net Assets per Share   | \$ 11.51          | \$ 11.64 |

### 9. Increase (Decrease) in Net Assets Attributable to Holders of Redeemable Shares per Share

The decrease in net assets attributable to holders of redeemable shares per Share for the period ended June 30, 2017 is calculated as follows:

|                                                                                      | June 30, 2017   |                 |
|--------------------------------------------------------------------------------------|-----------------|-----------------|
|                                                                                      | Series A        | Series F        |
| Decrease in net assets attributable to holders of redeemable shares (\$000's)        | (\$787)         | \$(1)           |
| Weighted average of Shares outstanding during the period                             | 2,142,727       | 130,160         |
| <b>Decrease in net assets attributable to holders of redeemable shares per share</b> | <b>(\$0.37)</b> | <b>(\$0.01)</b> |

The increase in net assets attributable to holders of redeemable shares per Share for the period ended June 30, 2016 is calculated as follows:

|                                                                                      | June 30, 2016 |               |
|--------------------------------------------------------------------------------------|---------------|---------------|
|                                                                                      | Series A      | Series F      |
| Increase in net assets attributable to holders of redeemable shares (\$000's)        | \$9,179       | \$321         |
| Weighted average of Shares outstanding during the period                             | 2,504,605     | 81,309        |
| <b>Increase in net assets attributable to holders of redeemable shares per share</b> | <b>\$3.66</b> | <b>\$3.94</b> |

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

---

### 10. Risks Associated with Financial Instruments

The Fund aims to provide long-term capital appreciation by investing primarily in Canadian resource companies that offer attractive risk-reward characteristics as well as other Canadian equities that offer the potential for capital appreciation.

The investment activities of the Fund expose it to a variety of financial risks: credit risk, liquidity risk, market risk (including interest rate risk, currency risk and other price risk) and concentration risk. The Manager seeks to minimize potential adverse effects of these risks on the Fund's performance by employing and overseeing professional and experienced portfolio advisors that regularly monitor the Fund's optimal asset mix and market events, as well as diversify the investment portfolio within the constraints of the Fund's investment objective.

To assist in managing risks, the Manager has established and maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment objectives and guidelines. Significant risks that are relevant to the Fund are discussed below.

#### ***Credit Risk***

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the counterparty by failing to discharge an obligation. The Fund may become exposed to credit risk from the purchase of debt instruments, engaging in securities transactions (including warrants) or through the use of custody, loan and/or bank accounts, as applicable.

As at June 30, 2017, approximately \$250,000 (December 31, 2016 - \$500,000) of the Fund's net assets attributable to holders of redeemable shares were exposed to credit risk.

All investment transactions are settled on delivery, minimizing the risk of default on investment transactions. Delivery of securities on a sale is only made once the custodian has received payment and, conversely, payment is only made on a purchase once the securities have been delivered to the custodian. The trade will fail if either party fails to meet its obligations. When the Fund trades in listed or unlisted securities through a broker, the Fund only transacts with reputable brokers that are duly registered with applicable securities regulators. In addition, custody transactions are carried out by counterparties that have a Standard & Poor's credit rating of "A" or higher. As such, credit risk tied to securities transactions is considered minimal.

The Fund only deposits assets with reputable companies that are eligible to act as a custodian under the provisions of National Instrument 81-102 – "Investment Funds". However, in the event of bankruptcy or insolvency of such companies, the securities or other assets deposited therewith may be exposed to credit risk, or access to those securities or other assets may be delayed or limited.

#### ***Liquidity Risk***

Liquidity risk is the risk that the Fund may not be able to settle or meet its obligations on time or at a reasonable price. In order to maintain sufficient liquidity, the Fund invests the majority of its assets in securities that are traded in an active market and can be readily disposed. The Fund also invests in securities that are not traded in an active market and may be illiquid. Such investments are identified as restricted securities in the Schedule of Investment Portfolio. In addition, the Fund aims to retain sufficient cash positions to maintain liquidity.

The financial liabilities disclosed in the interim Statements of Financial Position are all current liabilities and are, therefore, normally paid within the fiscal year.

#### ***Interest Rate Risk***

Interest rate risk is the risk that the fair value or future cash flows of the Fund's financial instruments will fluctuate due to changes in the prevailing levels of market interest rates.

As at June 30, 2017, approximately \$250,000 (December 31, 2016 - \$500,000) of the Fund's net assets attributable to holders of redeemable shares were exposed to interest rate risk. If prevailing interest rates had been raised or lowered by 1%, before considering changes to management and performance fees, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$2,500 (December 31, 2016 - \$5,000).

# Dundee Global Resource Class

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

### *Currency Risk*

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. Exposure to currency risk is mainly in financial instruments (including cash) that are denominated in a currency other than Canadian dollars, which is the functional currency of the Fund.

The table below presents major currencies the Fund had exposure to as at June 30, 2017. The table also illustrates the potential impact on the Fund's net assets if the Canadian dollar had strengthened or weakened by 5% in relation to each of the other currencies, before considering changes to management and performance fees.

June 30, 2017

| (In 000's)             | Exposure   |              |              | Sensitivity to 5% Fluctuation in Foreign Exchange Values |             |             |
|------------------------|------------|--------------|--------------|----------------------------------------------------------|-------------|-------------|
|                        | Cash       | Securities   | Total        | Cash                                                     | Securities  | Total       |
| United States Dollar   | \$-        | \$487        | \$487        | \$-                                                      | \$24        | \$24        |
| <b>Total</b>           | <b>\$-</b> | <b>\$487</b> | <b>\$487</b> | <b>\$-</b>                                               | <b>\$24</b> | <b>\$24</b> |
| <b>% of Net Assets</b> | <b>-</b>   | <b>2.30</b>  | <b>2.30</b>  | <b>-</b>                                                 | <b>0.10</b> | <b>0.10</b> |

The Fund had no significant exposure to currency risk as at December 31, 2016.

### *Other Price Risk*

Other price risk is the risk that the fair value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) caused by factors specific to a security, its issuer or all factors affecting a market or a market segment. Exposure to other price risk is mainly in equities and commodities, if applicable. As at June 30, 2017, approximately \$17,518,000 (December 31, 2016 - \$17,786,000) of the Fund's net assets attributable to holders of redeemable shares were exposed to other price risk. If prices of these investments had decreased or increased by 5%, before considering changes to management and performance fees, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$876,000 (December 31, 2016 - \$889,000).

### *Concentration Risk*

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, or industry sector. The following is a summary of the Fund's concentration risk.

| As a Percentage of Net Assets (%) | June 30, 2017 | December 31, 2016 |
|-----------------------------------|---------------|-------------------|
| <b>EQUITIES AND WARRANTS</b>      | <b>81.1</b>   | <b>94.3</b>       |
| Diversified Metals and Mining     | 25.3          | 9.3               |
| Energy Other                      | 6.7           | 9.3               |
| Energy                            | -             | 6.2               |
| Gold and Precious Metals          | 43.2          | 60.1              |
| Other                             | 5.9           | 9.4               |
| <b>FIXED INCOME</b>               | <b>1.2</b>    | <b>2.7</b>        |
| Other                             | 1.2           | 2.7               |

## 11. Fair Value Hierarchy

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

*Level 1* – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 1 financial instruments include actively listed equities and other publicly quoted investments. The Manager does not adjust the quoted price for these instruments.

## Dundee Global Resource Class

### NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

*Level 2* – Inputs to the valuation methodology include inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument, including quoted prices for similar assets and liabilities in active markets. Level 2 financial instruments include those that trade in markets that are not considered to be active but are valued based on quoted market prices or dealer quotations supported by observable inputs. These include investment-grade corporate bonds, warrants not listed in an active market, and certain listed equities that are subject to sale restrictions, whose valuations may be adjusted to reflect illiquidity.

*Level 3* – Inputs to the valuation methodology are based on unobservable market data. Level 3 financial instruments are those that have at least one significant unobservable input, as they are not based on quoted market prices. Level 3 instruments include private equity and private debt securities. As observable prices are not available for these securities, the Manager has used valuation techniques to derive fair value. Level 3 valuations are reviewed on a quarterly basis by the Fund's valuation committee, which evaluates the model inputs as well as the valuation results prior to making any fair value determinations regarding the Fund's Level 3 financial instruments.

The following table summarizes the fair value hierarchy of the Fund's financial instruments as at June 30, 2017.

| <b>June 30, 2017</b>               |                 |                |                |                 |
|------------------------------------|-----------------|----------------|----------------|-----------------|
| <b>(\$000's)</b>                   | <b>Level 1</b>  | <b>Level 2</b> | <b>Level 3</b> | <b>Total</b>    |
| Equities                           | \$16,186        | \$-            | \$487          | \$16,673        |
| Fixed Income                       | -               | -              | 250            | 250             |
| Warrants                           | -               | 845            | -              | 845             |
| <b>Total Financial Instruments</b> | <b>\$16,186</b> | <b>\$845</b>   | <b>\$737</b>   | <b>\$17,768</b> |

The following table summarizes the fair value hierarchy of the Fund's financial instruments as at December 31, 2016.

| <b>December 31, 2016</b>           |                 |                |                |                 |

# Dundee Global Resource Class

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

---

### *Transfers Between Levels*

The Fund recognizes transfers into and out of the fair value hierarchy levels as of the period end date for financial reporting purposes. During the period ended June 30, 2017 and December 31, 2016, no investments have transferred between levels.

### *Significant Unobservable Inputs in Measuring Fair Value*

As at June 30, 2017, fair value for the Partnership's Level 3 equities was based on comparable price movements. Comparable price movements entails monitoring the share price movements of a comparable peer group of publicly-listed companies in order to ascertain general trends and ultimately apply those trends to the fair value of the related holding. The Manager assembles a peer group by selecting a basket of companies that share investment characteristics and risks with the holding being fair valued. Fair value for the Partnership's Level 3 fixed income instruments was based on the cash value of the underlying issuer. A sensitivity analysis is not presented herewith as the Manager considers there to be no relevant range for presenting sensitivities with these valuation techniques. All level 3 securities were purchased at arm's length.

Fair value for all Level 3 instruments as at December 31, 2016, were valued at cost, given the recent nature of these purchases.

### *Financial Instruments by Category*

The following table presents the net gain (loss) on financial instruments at FVTPL by category for the period ended June 30, 2017 and 2016.

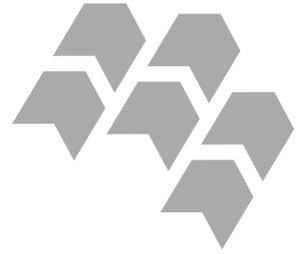

| <b>Financial assets at FVTPL (\$000's)</b> | <b>June 30, 2017</b> | <b>June 30, 2016</b> |
|--------------------------------------------|----------------------|----------------------|
| HFT                                        | \$122                | \$778                |
| Designated FVTPL                           | (325)                | 10,820               |
| <b>Total</b>                               | <b>(\$203)</b>       | <b>\$11,598</b>      |

## 11. Recent Events

### *Dividend Payment*

On February 23, 2017, the Fund paid a dividend of \$0.84257 per Share to Series A and Series F shareholders of record on February 22, 2017. The dividend was a capital gains dividend for the purposes of the Income Tax Act (Canada) and any similar applicable provincial legislation. The capital gains dividend was automatically reinvested in additional shares of the same class and series.
